The Leading Physical Culture Teacher of America,
Prof. ROBERT J. ROBERTS, of the Y. M. C. A. Gymnasium, of Boston, says:
DEAR SIR:—I can only speak of the "old Johnson's Anodyne Liniment" in the highest terms. I have used it in the gymnasium when the boys have strained or overworked their bodies. It has worked like magic in reducing swelled joints and in removing soreness of the parts. At home my wife has used it with our boys and speaks enthusiastically. In fact for most of the slight ills of the flesh, internal and external, it has proved valuable. [Signed] **ROBERT J. ROBERTS.**

A RARE OPPORTUNITY

FARM-POULTRY

The Best and Most Practical Journal of Its Class

—AND—

GOOD HOUSEKEEPING

A High Class Monthly Magazine, Conducted in the Interests of the Higher Life of the Household.

\$2 In Value For \$1

Good Housekeeping occupies a position peculiarly its own, in that it is conducted in the interests of the higher life of the household, for it is devoted not only to practice, but to inspiration—to telling how the everyday affairs of life may be conducted, but always leading upward. Its departments, regular and special, are as numerous as the varied phases of the life of the household. It appeals to either sex, whether of young or of advancing years. It not only helps, but gratifies the physical, mental, and artistic natures of all its readers.

The following topics and lines of research are samples of what Good Housekeeping is doing for the dwellers in the homes of America:—

Successful Kitchens,
The Latest Hygiene,
Home Handicraft of Various Kinds,
Homemade Christmas Gifts, Illustrated,
Truth About Dishonest and Adulterated Food,
Famous Cookery Schools Described,
People Who Have Uplifted Home Life, Illustrated,
New Sources of Income,
Tasteful House Furnishing, Illustrated,
"Good Housekeeping Babies,"
Disadvantages and Advantages of Country Girls.

Advantages and Disadvantages of City Girls,
Women's Exchanges,
"The Best Way," in all kinds of Housework,
Mistakes of Young Housekeepers,
Original Recipes from Famous Cooks and Cooking Teachers,
The Four-footed Cousins,
Fathers and Sons,
Household Economics,
New Ideas in Fancy Work,
Changes and Tendencies in Home Life,
New Fashions and their Wearers,
Diseases of Children, etc.

The whole magazine is dominated by a high purpose to be an ever ready help and inspiration toward making "the higher life of the household" a practical and delightful reality in every family, and a force in social and civic affairs.

Each number consists of 96 pages filled to overflowing with original and interesting reading, including many handsome and striking illustrations.

OUR ABSOLUTELY UNPARALLELED OFFER

By an arrangement just perfected we are enabled to offer this most useful and interesting magazine on the following special and remarkably liberal terms:—

FARM-POULTRY,	one year \$1.00	} Both for Only \$1.00
GOOD HOUSEKEEPING,	one year \$1.00	

We thus offer the two ablest and most representative journals of their class at the price of either one by itself, thus giving our readers an opportunity never before offered. Think of it: a handsome illustrated magazine, a year's numbers of which make an elegant volume of over 1,150 pages, all of which may be had without cost by every subscriber to Farm-Poultry, under this most remarkable offer. Surely this is the chance of a life time, and no one should delay or fail to take advantage of it. A sample copy of Good Housekeeping will be sent to any address on receipt of eight cents in stamps, which should be sent to the publishers at Springfield, Mass., or Chicago, Ill.

RACINE HATCHER CO., BOX 29, RACINE, WIS.

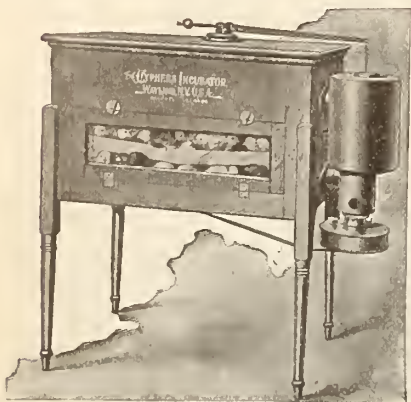

EVA. Mr. Colby, the druggist, says that Thanksgiving, Christmas and New Year's time there is an increased demand for Ripans Tabules. Can you guess why that should be?

MAX. They are an advertised dyspepsia cure. I saw my chum take one at the railway restaurant the other day, and he told me that he did it because he had eaten a piece of mince pie.

EVA. I think that explains it, for I have noticed that papa generally takes one after a dinner that he has seemed to specially enjoy. If he does so he is good natured next morning, but if he does not take the Tabule he is sure to be cross, not only in the morning but before bed-time as well.

WANTED:—A case of bad health that RIPPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIPPANS on the package and accept no substitute. RIPPANS, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

More large and successful poultry plants are illustrated and described in this book than in any other Poultry Work ever published.

SPECIAL ARTICLES OF HIGHEST PRACTICAL VALUE,

WRITTEN BY EXPERTS AND PROFUSELY ILLUSTRATED:

PROFITABLE EGG FARMING.

Comprising an illustrated description of two large and profit earning egg farms, where hundreds of layers are kept that earn better than \$1 per head per year.

GROWING WINTER CHICKENS OR ROASTERS.

A fully illustrated description of four prominent New England farms, where the pet theories of office desk poultry writers are set at naught, and gilt edge table fowl called winter chickens or roasters are produced by the ton at a profit of 50 cents to \$1 per fowl.

THE CYPHERS DUCK AND BROILER FARM.

A six page profusely illustrated description of a large, well equipped, practical duck and broiler plant, showing instructive interior views of brooding houses, telling how and what to feed, and all about results obtained after three years experimenting.

PULLETS VS. HENS AS PROFITABLE LAYERS.

Which demonstrates that pullets greatly excel old hens as money earners, and tells how 1,000 pullets earned \$1,160 per year over cost of their food. Illustrated.

PROFITABLE BROILER RAISING.

Setting forth which are the best breeds for broilers, what and how to feed, how to kill and dress for market, the prices paid during the last three years, etc.

GROWING PEKIN DUCKS FOR MARKET.

With full instructions for housing, mating, feeding, brooding, care of ducklings, etc.; also killing, dressing, and shipping to market. Illustrated.

THE STANDARD BRED POULTRY BUSINESS.

Floely illustrated, explaining what is meant by standard bred, what the so-called fanciers have accomplished, and emphasizing the far reaching importance of this branch of industry.

ANOTHER HIGHLY VALUABLE SERIES OF ARTICLES IS ENTITLED,

WHAT THE COLLEGES ARE DOING FOR POULTRY,

INCLUDING A SPECIALLY ILLUSTRATED DESCRIPTION OF RECENT VISITS MADE TO THE POULTRY PLANTS OPERATED IN CONNECTION WITH THE

RHODE ISLAND STATE COLLEGE of AGRICULTURE, Kingston—five views.

THE CONNECTICUT STATE COLLEGE at Storrs—three views.

THE MASSACHUSETTS STATE COLLEGE at Amherst—three views.

THE MAINE STATE COLLEGE at Orono—three views.

THIS DEEPLY INTERESTING SERIES OCCUPY TEN PAGES OF THE BOOK.

AS A MATTER OF COURSE, THIS BOOK, which is also a complete catalogue of the Cyphers Non-moisture Incubators and Apartment Brooders contains a detailed faithfully illustrated (photographic) description of the full line of **INCUBATORS, BROODERS AND POULTRY APPLIANCES** manufactured and offered **FOR SALE BY THE CYPHERS INCUBATOR COMPANY.** It illustrates and minutely describes all there is to the goods of our manufacture, so that every customer will know beforehand precisely what he is buying. The illustrations and descriptions are so plain and complete that even the novice will know, beyond a doubt, that these goods are right. The best possible proof of their value and work in the hands of hundreds and hundreds of men and women who have bought them is set forth in the most convincing manner—in a way that simply leaves no doubt in the mind of the average reader.

FOUR TO FIVE HUNDRED RECENT 1900 TESTIMONIAL

Letters are presented from the professors or poultry managers of a dozen leading State and Dominion Experimental Stations,

Operated in connection with Agricultural Colleges; from the owners or managers of over sixty of America's largest and most successful duck, broiler, roaster, egg and standard-bred farms; from over one hundred of this country's best-known breeders of market and exhibition fowls, and from men, women and youths in all walks of life who are using the **CYPHERS NON-MOISTURE, SELF-VENTILATING, SELF-REGULATING INCUBATORS**, and tell in their own words of the unequalled and highly satisfactory work they do at all times of the year under widely varying conditions.

Get More Eggs

NOW WHEN THEY ARE WORTH SOMETHING.

Your hens will do their part if you will give them a chance. Give them something to work with. Give them the right kind of food and they'll do the rest. Give them egg-producing food and they can't help laying even in winter. The best food to make hen's lay is

PIONEER CLOVER MEAL

It is made from selected, clean clover hay, cured by our peculiar process so as to preserve its bright, green color and retain its essential oils and aroma. It is ground into a fine meal (not cut) by our special machinery. It brings to the winter layer all the conditions of fresh, green summer food, under which conditions the hens just have to lay eggs. No trouble to use. You merely mix it with the ground feed. Costs little and lasts long. 100 lbs. for \$2 Sample and book of endorsements FREE.

The Bennett & Millett Co., Box F, Gouverneur, N. Y.

We Want Agents and Dealers

In every city and town to handle our Pioneer Clover Meal. It is one of the fastest sellers in the poultry food line. Send for our special wholesale price list. It is a money maker as well as an egg maker.

SCOTCH COLLIE NEWS

BEULAH AND "DEWEY."

I enclose you a picture of myself with our Scotch Collie, purchased in August, 1899, which we call "Dewey." He is not only handsome, but very intelligent, his eyes almost speak. We have taught him to bring the mail, and other useful duties. We play "hide and seek" call to him "ready," he hunts every corner until he finds me. We think him very obedient for one so young.

Waynesboro, Pa., Dec. 1, 1899.
BERTAN HENRY.

Of all the dogs I have ever seen, I think you have selected me the most beautiful Scotch Collie male pup. He is the best dog about doing as he is told, we have ever seen.

Pittsburg, Pa., Aug. 18, 1900.
TOM SCOTT.

My second female Scotch Collie pup came to hand June 1st. She is grand in style and action, and her intelligence is remarkable for her age. I need not add that I am pleased with her and thankful to you.

Bloomburg, Pa., June 2, 1900.
J. B. RUCKLE.

We enclose you a photo of spayed female Scotch Collie pup we bought of you last April. We were very much pleased with her on her arrival. The markings could not be better, and we thank you for your selection. She has turned out to be a very active and intelligent dog; seems to understand almost every word you say, and is very quick to mind. Last summer when only five months old she would keep the old hens from bothering the small chickens while they were eating. We have a daily paper thrown from the train which passes about a hundred rods from the house; she has learned to watch for the train, go for the paper, and bring it to the house without a word being said to her. Everybody admires her who sees her. Thanking you again for your honorable dealings with me.

Atlas and Dictionary

THE DICTIONARY

Contains 50,000 Words. All the Average Person Has Any Use For.

In quality it is unexcelled, even by the great standard works of today. Worcester's Dictionary has 165,000 words, Century 225,000 and Standard 300,000. These cost from \$10 to \$60 each. Ours with 50,000 words retails for 25 cents. The greatest of all advertisements in modern dictionary making is the addition of 25,700 words to this dictionary by means of a single page, called the "Columbian Word-Builder."

Besides the dictionary it also contains twelve departments, as follows: 1. Abbreviations; 2. Pronouncing Dictionary; 3. Proper Names; 4. Gazetteer of the World; 5. Large Cities; 6. Parliamentary Rules; 7. Business Instructor; 8. Social Etiquette; 9. Letter Writer; 10. Use of Capitals; 11. Punctuation; 12. Postal Guide; handsomely bound in imitation leather covers.

One of the most comprehensive and valuable books of its size ever published. The maps are not cheap prints—they are printed just as finely as those in books 16 or 100 times its size—are all in four and five colors. The maps cover not only the world in a general way, but many of them are in detail, showing the most important points in the whole world which any one might want to find. The city maps show the streets and places of special interest.

There is a fund of statistical matter and other information of general usefulness, as for instance: Facts about our neighbors, North and South. Inter-Ocean Canal problems, with illustrations. Chronological history of the Spanish-American war, and brief descriptions of our Colonial possessions. Sovereigns of the world. The Eastern question (illustrated). The New Africa. The highest point in each State, highest columns, domes, etc., handsomely bound in imitation leather.

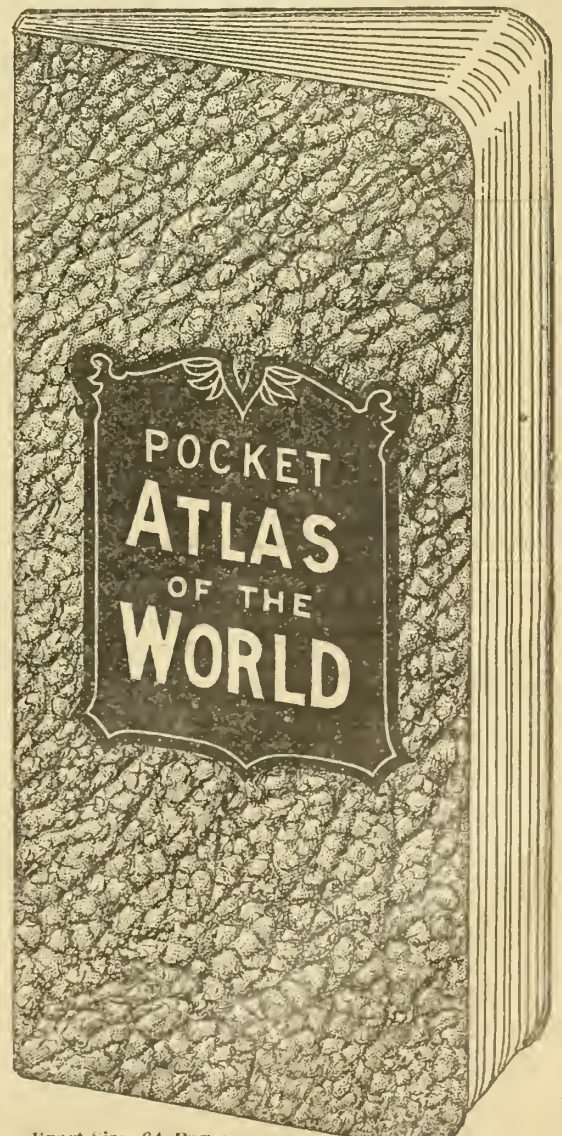

How To Get Them.

To introduce our great farm and family Weekly, the AMERICAN AGRICULTURIST (which already has a circulation of over 200,000), into every home where it is not now taken, we make the following Special and Unparalleled Offer. The regular price of American Agriculturist is \$1.00 per year, but we will accept subscriptions three months on trial for only 25 CENTS (in silver or stamps), and to those ordering immediately and mentioning the paper in which this offer appears, we will send, postpaid, the great books above described, free of charge.

ORDER NOW, and remember you risk nothing, as we refund money if not perfectly satisfied.

HISTORIES OF Different Breeds

DO YOU WANT A FULL DESCRIPTION

Of the different breeds of fowls with their individual merits, or any one of them? We published such descriptions and histories, each breed being accompanied by a fine illustration of a representative pair of the breed, drawn especially for us by Sewell, — and any one or more can be supplied from this office, postpaid, for five cents. The breeds and histories are as follows:—

White Wyandottes	Pekin Ducks
Partridge Cochins	Silver Wyandottes
S. C. Brown Leghorns	Buff Cochins
Light Brahmans	S. C. White Leghorns
White Plymouth Rocks	Barred Plymouth Rocks

That list pretty much covers the popular varieties, and the great majority of poultrymen can find their special breed in it. Any one of those will be sent postpaid for 5 cents in stamps. Send cash or stamps to.

MANN'S GREEN BONE CUTTERS
are more largely used than those of all other makes combined. There are good reasons for this. They are found in the superiority of these machines, in material, construction, ease of operation, rapidity, quality of resulting food, general efficiency, etc. They last practically indefinitely.
Mann's Clover cuts four times as fast as others, as one turn of the wheel makes twelve cuts. It is a strong, practical machine and in no sense a toy or plaything. Cuts dry or green feed equally well.
Mann's Swinging keeps the feed in and the poultry out. Saves the feed and insures against foulness and dirt. Made of iron they last always.
Mann's Granite Grit insures perfect digestion, as it is the hardest grit known. No dust, sand, &c. Lasts longer and is better and cheaper than oyster shells. Sold for cash or installments. Write for free illustrated catalogue of these and many other things convenient and valuable for poultrymen.

Every Fruit Grower Should Read
R. M. Kellogg's New Book Entitled
**GREAT CROPS
—OF—
SMALL FRUIT**
AND HOW TO GROW THEM. The author has grown the largest crops of fancy fruit ever produced on an acre. In his experimental grounds are single plants which yield over FOUR QUARTS each of the large berries. His customers have done as well. This has been accomplished by SCIENTIFICALLY BREEDING up plants to a high fruiting vigor so they throw their energies to the development of fruit instead of useless runners. The profit comes from a big crop of big berries that sell at sight to regular customers. This book tells you all about how it is done. THE CHEAPEST PLANT is the one that will give you the best fruit and most of it. You can't afford to play second fiddle on the market by using scrub plants. OLD OR NEW SUBSCRIBERS CAN HAVE IT.

In order to introduce our readers who keep a horse to the Prince of American Horse Trainers, Oscar R. Gleason, and his great book, we make the above unparalleled offer.

BREAKING A VICIOUS KICKER.

Professor Gleason has no equal as a horse trainer, and his book, like its author, baffles comparison. People assemble in great numbers to see his public exhibitions. His power over vicious horses is marvelous.

In his book he tells in plain, straight-forward language just how to proceed in difficult cases with obstinate animals, and what means will bring success. The numerous illustrations make it impossible to misunderstand how to construct his appliances, and clearly show how they are to be used. No kind of ill-behavior or disease that affects the horse is overlooked. The book is replete from cover to cover with valuable information that the author has been years in compiling. As a result the UNITED STATES GOVERNMENT has greatly honored Professor Gleason by adopting his book as the RECOGNIZED AUTHORITY in the care and control of the horses of the United States cavalry. The book contains over

400 Pages, 300 Special Drawings

No more practical work than GLEASON'S HORSE BOOK could be obtained by the farmer. The information it contains may be the means of saving its owner SEVERAL HUNDRED DOLLARS WITHIN A YEAR.

A SYNOPSIS OF THE BOOK'S CONTENTS

History of the Horse; Educating the Horse; Teaching Horses Tricks; How to Buy; How to Feed, Water and Groom; Breeding and Raising Horses; Breaking and Taming Vicious Horses; Methods of Detecting Unsoundness; The Teeth; Horseshoeing, Diseases of the Horse.

This valuable book, in cloth binding, was originally sold at \$2.00 a copy, but our arrangement with the publishers enables us to offer a special premium edition TO OUR SUBSCRIBERS—old and new alike. Also

FARM AND FIRESIDE is the monarch of the world's rural press. It has over 310,000 subscribers. It is issued twice a month, and gives 20 to 24 pages each issue, each page 11 by 16 inches. Its contributors on agricultural subjects are the best in the land. In the course of a year every feature of farming receives attention. The "Fireside" part of the paper is devoted to the interests and entertainment of the farmer's wife and family. There are excellent short and serial stories, cut paper patterns, new receipts for cooking, canning fruit, and timely articles on home topics. Numerous illustrations are used.

They are well stuffed, beautifully upholstered with handsomely colored velour, and when shipped are sent from the factory by freight direct to your address. **MANUFACTURERS' SUPPLY DEPARTMENT, No. 65 FIFTH AVE., NEW YORK CITY.**

DON'T WASTE GOOD EGGS.

Don't waste good eggs in a poor, ill ventilated incubator. There is no reason why you shouldn't always have a good hatch without any trouble or annoyance. You will have good hatches if you use the

PINELAND INCUBATOR.

(Don't forget the name.)

It is the simplest and the most economical. It has the most scientific system of ventilating and the most sensitive and practical regulator made. Our brooders have revolutionized chick raising wherever used. Send for free catalogue and judge for yourself.

WINTER EGGS HOW TO GET THEM.

Selection, Care and Food of Laying Hens.

The above is the title of a new book. The latest in the Farm-Poultry series; **PRICE 25 cts.**

In many respects it will be the most valuable book we have ever published, because it treats of one subject only, of which every poultry raiser, large or small, wants to know all that is new, or best, namely, how to get the most eggs in winter when prices are high.

THE BOOK will be sent postpaid on receipt of 25 cents in cash or postage stamps; or we will send the book and a year's subscription to Farm-Poultry both for \$1.

I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plowing, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peach time, I had a most serious attack of chills and then commenced to take Ripans Tabules, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tabules will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said, "Say, John, what are you doing to look so healthy?"

WANTED:—A case of bad health that R-I-P-A-N-S will not benefit. They banish pain and prolong life. One gives relief. Note the word R-I-P-A-N-S on the package and accept no substitute. R-I-P-A-N-S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

SECRETS OF HEALTH

By S. H. PLATT, A. M., M. D.
A HANDY VOLUME FOR EVERYDAY CONSULTATION BY EVERYONE, ESPECIALLY PREPARED FOR YOUNG AS WELL AS OLD.

In the author's 20 years of wide experience as a family physician, he has learned just what the mass of people need to know, that they may not be sick, or may get well from sickness. Such knowledge is given in this book. It is so plainly stated that any person may profit thereby. Unlike all other books for the people, **The Secrets of Health** is not confined to any one school of healing, but includes the most successful practices of all schools. Utterly opposed to indiscriminate drug dosing, the object of the book is to show how, by simple and natural methods, health may be preserved or restored without doctors' fees or druggists' bills. It proposes to cut down by 75 per cent. the expense for doctor and drugs. Yet it does not presume to do without the honest and competent physician, but to aid his work and lessen the necessity of calling him, and to take his place when out of reach, so far as the printed page can.

CONTENTS IN BRIEF

- Part I.—How to live, or hygiene made practical.
- Part II.—Our living machine—the body, its parts and their functions fully explained.
- Part III.—The digestion—its organs and processes.
- Part IV.—Diet, what, how much, and when to eat—the whole subject clearly treated.
- Part V.—Foods and their preparation, their composition, adulterations, how to cook them, etc., etc., very exhaustively covered.
- Part VI.—Special treatments for disease, describing 31 methods, mostly based on nature, including every form of water treatment.
- Part VII.—Care of the sick.
- Part VIII.—Particular methods for treating certain classes of diseases, and special diets.
- Part IX.—Diseases and their treatment—symptoms, cause and treatment for all diseases, forms of sickness, etc.

RIGHT TO THE POINT

Every line of this book is to the point. The wheat is sifted from the chaff. It contains more actual, practicable information than any ten-dollar or twenty-dollar medical book published, for the information given is in a form to be used by every one, and is so arranged that it can be most easily consulted. It gives more for the money than was ever before attempted. There are nearly 75 illustrations in this book, showing the framework and all the different organs of the body, together with the muscles, nerves, etc.; also a number of the treatments.

A \$1.50 BOOK

This book has never before been sold in cloth for less than \$1.50 per copy. It has 512 pages, and is fully illustrated. The book is substantially bound in attractive paper covers. This **NEW COLOR PLATE EDITION** has been popularized by the omission of some topics which while important in themselves are essential as should be referred to a physician, and which also are just as well omitted from a book for general use. We consider that their omission is more than compensated for by the fact that as now published **Secrets of Health** can be freely consulted by **EVERY** member of the family, young or old.

HOW TO GET IT FREE

To introduce our great farm and family weekly, the **AMERICAN AGRICULTURIST**, (which already has a circulation of over 200,000), into every home where it is not now taken, we make the following Special and Unparalleled Offer: The regular price of **American Agriculturist** is \$1.00 per year, but we accept new subscriptions three months on trial for only **25 CENTS** (in silver or stamps), and to those ordering immediately and mentioning the paper in which this offer appears, we will send, postpaid, the great book above described free of charge.

ORDER NOW, and remember you risk nothing, as we refund money if not perfectly satisfied. Address orders to either of our offices, but to avoid delay send to the one nearest you.

The Leading Strain

— OF —

HEAVY LAYERS.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Stock for sale. Cockerels a specialty. Our birds are unexcelled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE. Illustrated circular free.

A RARE OPPORTUNITY

FARM-POULTRY

The Best and Most Practical Journal of Its Class
—AND—

A High Class Monthly Magazine, Conducted in the Interests of the Higher Life of the Household.

\$2 In Value For \$1

Good Housekeeping occupies a position peculiarly its own, in that it is conducted in the interests of the higher life of the household, for it is devoted not only to practice, but to inspiration—to telling how the everyday affairs of life may be conducted, but always leading upward. Its departments, regular and special, are as numerous as the varied phases of the life of the household. It appeals to either sex, whether of young or of advancing years. It not only helps, but gratifies the physical, mental, and aesthetic natures of all its readers.

The following topics and lines of research are samples of what Good Housekeeping is doing for the dwellers in the homes of America:

- Successful Kitchens.
- Solutions of the Domestic Help Problem.
- The Latest Hygiene.
- Home Handicraft of Various Kinds.
- Homemade Christmas Gifts, Illustrated.
- Truth About Dishonest and Adulterated Food.
- Famous Cookery Schools Described.
- People Who Have Uplifted Home Life, Illustrated.
- New Sources of Income.
- Tasteful House Furnishing, Illustrated.
- "Good Housekeeping Babies."
- Disadvantages and Advantages of Country Girls.
- The whole magazine is dominated by a high purpose—the higher life of the household—a practical and delightful reality in every family, and a force in social and civic affairs.

Each number consists of 96 pages filled to overflowing with original and interesting reading, including many handsome and striking illustrations.

OUR ABSOLUTELY UNPARALLELED OFFER

By an arrangement just perfected we are enabled to offer this most useful and interesting magazine on the following special and remarkably liberal terms:

FARM-POULTRY, one year \$1.00
GOOD HOUSEKEEPING, one year \$1.00 } Both for Only **\$1.00**

We thus offer the two ablest and most representative journals of their class at the price of either one by itself, thus giving our readers an opportunity never before offered. Think of it: a handsome illustrated magazine, a year's numbers of which make an elegant volume of over 1,150 pages, all of which may be had without cost by every subscriber to Farm-Poultry, under this most remarkable offer. Surely this is the chance of a life time, and no one should delay or fail to take advantage of it.

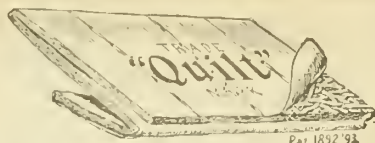

A sample copy of Good Housekeeping will be sent to any address on receipt of eight cents in stamps, which should be sent to the publishers at Springfield, Mass., or Chicago, Ill.

The Warmest Sheathing

This is not a mere sheet of paper, like the others, but a thick cushion of dead-air spaces, and keeps out cold exactly as a bird's plumage does. One layer is equal to six of common papers, and better than lath and plaster. It is decay and vermin-proof, and costs less than 1c. a foot. Send for free sample of

20,000 SOLD IN 1899 AND 1900

Would not this fact seem to indicate something of merit? Well, it does, but a million sales would not prove such a convincing argument to a buyer as our

NOW IS THE TIME YOU WANT EGGS!

By feeding your fowls a little

Banner Egg Food and Tonic,

Your hens will lay lots of eggs, and you can double your profits, as this is the season of the year when fresh laid eggs are scarce.

Remember, this **TONIC** does not force your hens to lay; it only brings them up to the peak of condition, which is necessary for egg production.

To those who have never used it, we simply ask you to give it a trial, and be convinced.

Prices 1 lb. can 25c.; 5 lb. can 1.00; 5 cans \$1.00 on board express in New York.

200-Egg Incubator for \$12.

The simplicity of the Stahl incubators created a demand that forced the production to such great proportions it is now possible to offer a first-class 200-egg incubator for \$12. This new incubator is an enlargement of the famous

WOODEN HEN

recognized the most perfect small hatcher. This new incubator is thoroughly well made; is a marvel of simplicity, and so perfect in its working that it hatches every fertile egg. Write for anything you want to know about incubators. Send for the new free illustrated catalogue.

SCOTCH COLLIE NEWS

BEULAH AND "DEWEY."

Enclose you a picture of myself with our Scotch Collie, purchased in August, 1899, which we call "Dewey." He is not only handsome, but very intelligent, his eyes almost speak. We have taught him to bring the mail, and other useful duties. We play "hide and seek," call to him "ready," he hunts every corner until he finds me. We think him very obedient for one so young.

BEULAH HENRY.

Waynesboro, Pa., Dec. 1, 1899.

Of all the dogs I have ever seen, I think you have selected me the most beautiful Scotch Collie male pup. He is the best dog about doing as he is told, we have ever seen.

TOM SCOTT.

Pittsburg, Pa., Aug. 18, 1900.

My second female Scotch Collie pup came to hand June 1st. She is grand in style and action, and her intelligence is remarkable for her age. I need not add that I am pleased with her and thankful to you.

J. B. BUCKLE.

Bloomsburg, Pa., June 2, 1900.

We enclose you a photo of spayed female Scotch Collie pup we bought of you last April. We were very much pleased with her on her arrival. The markings could not be better, and we thank you for your selection. She has turned out to be a very active and intelligent dog; seems to understand almost every word you say, and is very quick to mind. Last summer when only five months old she would keep the old hens from bothering the small chickens while they were eating. We have a daily paper thrown from the train which passes about a hundred rods from the house; she has learned to watch for the train, go for the paper, and bring it to the house without a word being said to her. Everybody admires her who sees her. Thanking you again for your honorable dealings with me,

F. H. BARCOCK.

Our New Catalogue

is published in five separate editions and printed, in addition to English, in the French, German, Swedish and Spanish languages. Why was this necessary? Merely to keep up with the constantly increasing demand for the

and reliable information concerning them sought by people of foreign countries. This is the first incubator manufactory that has ever been compelled to adopt such a measure simply and solely from the reputation and recognized merits of its machines. It would seem impossible to hide the reputation of our goods. Those who are using them here at home will not wonder at this, as they are well acquainted with their merits. They know from experience that the SUCCESSFUL INCUBATORS will hatch every egg that can be hatched in any way, that they are entirely automatic in supplying heat, moisture and ventilation and that every chick hatched has the strength to grow. They know also that our BROODERS will successfully brood and grow every chick that can be grown in any way. They know also that our entire line of SUCCESSFUL, ECLIPSE and CRESCENT INCUBATORS and our complete line of BROODERS are each

Useful and Ornamental
Breeds and Their Proper Management.
New Revised Color Plate Edition

By **JAMES RANKIN, P. H. JACOBS, T. M. FERRIS, BERR KNAPP, W. H. RUDD,** and others.

352 Pages, 154 Illustrations, Illuminated Cover, and **COLOR PLATES** showing Cochins, Brahmas, Malays, White and Brown Leghorns, Plymouth Rocks, Leghorns, Golden, Black, and Silver Hamburgs, Rouen and Pekin Ducks, Toulouse Geese, Golden Spanish and Black Polish, Gray Dorkings, Red Games, and White Bantams.

This new, revised and enlarged edition of what has always been recognized as the standard work on poultry is nearly one-third larger than any previous edition, and has been fully brought up to the requirements of the present day. As denoted by the title of the book, most prominence is given to the side of poultry keeping which returns an income. So many questions are constantly asked about the various breeds and also concerning diseases and their treatment, that these topics have been quite fully considered. The turkey department has been made as complete as possible on account of the increasing interest in that branch of poultry keeping.

CONTENTS.

Poultry Raising—General Poultry Houses—Special Purpose Poultry Houses—Poultry House Conveniences—Natural Incubation—Care of Chickens—Coops—Artificial Incubation—Preparing for Market—Caponizing—Poultry Keeping as a Business—Hints About Management—Popular Breeds—Diseases of Poultry—Parasites Upon Turkeys—Raising Turkeys—Raising Geese—Ornamental Poultry—Breeding and Cross Breeding—Feeding for Growth—Feeding for Eggs—Turkeys on the Farm—Diseases and Pests—Poultry Dictionary and Calendar.

This same work was never before offered, in cloth covers, for less than \$1.00 per copy. We have, however, printed an enormous edition in illuminated paper covers from the same plates as the expensive edition. The regular price of our paper is \$1.40 per year, but to introduce it in thousands of homes where it is not now taken, we make the following wonderful proposition to new subscribers only: To anyone sending us only 25 cents (in silver, stamps, or otherwise), we will send American Agriculturist for three months, and, in addition, a copy, postpaid, of Profits in Poultry, as described.

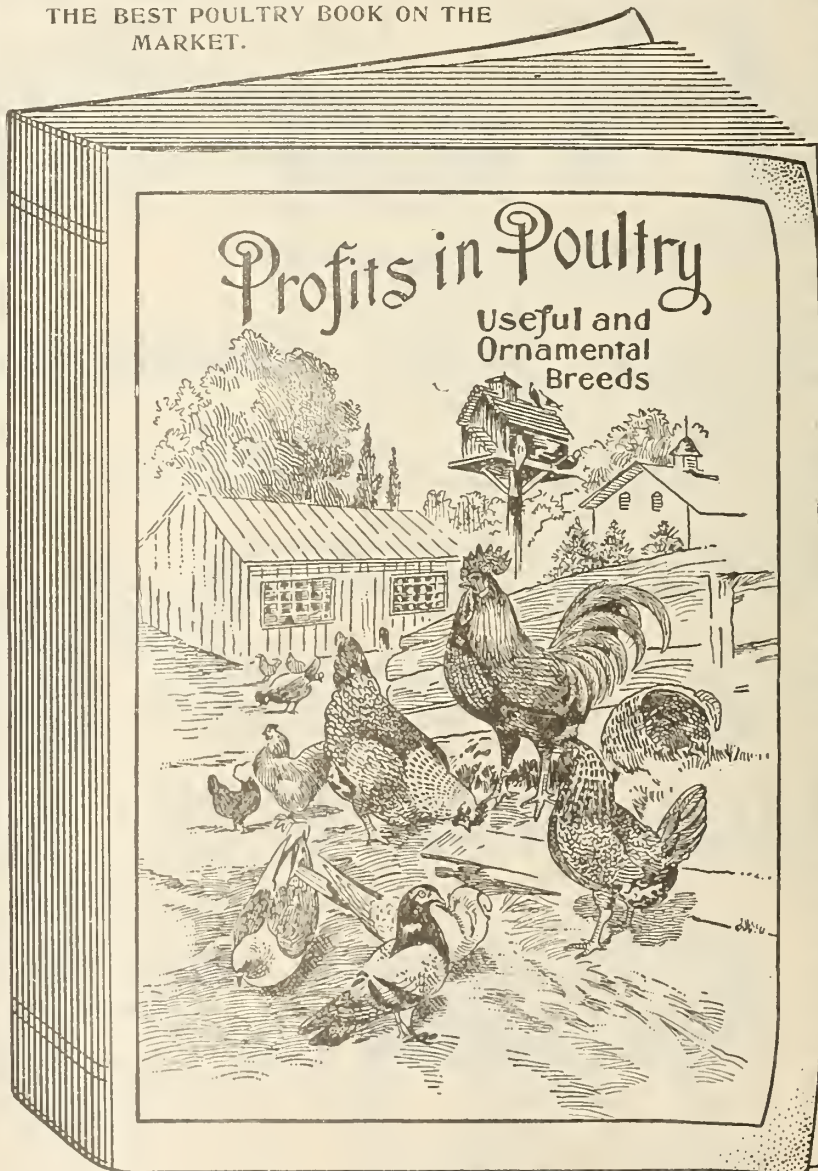

Poultry Record Book, Too!

On condition (1) that you promptly accept this offer, and (2) that you mention the paper in which you saw this offer, we will for only 10 cents more, or 35 cents in all, send you our **Poultry Record Book**, which sells for 50 cents. Every poultry raiser, large or small, should have this record book, as he can keep count of laying record, hatching, expenses, sales, and receipts for every day in the year, and summarize at the end of the year just how the poultry have paid. Remember, for only 35 cents you get the American Agriculturist three months, Profits in Poultry, and the Poultry Record Book.

SELLS EGGS

FROM HIS BEST.

In buying hatching eggs to improve your stock it always pays to buy the best, regardless of price, and to buy of a breeder with a reputation and experience in mating for best results.

MANY OF THE WINNERS

At the largest shows held this season from Maine to California, were hatched from eggs sold by us last season. We have had 25 years experience, and use only the best bred birds of the highest merit, and can sell you eggs that will produce winners.

WHITE LEGHORNS

The Leading Strain

— OF —

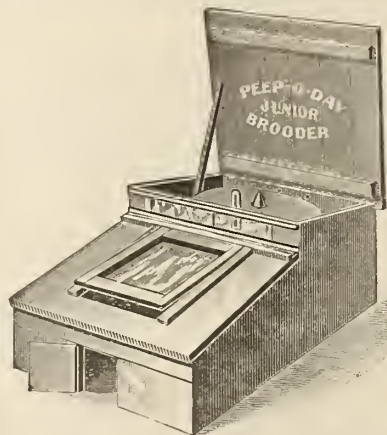

HEAVY LAYERS.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Stock for sale. Cockerels a specialty. Our birds are unexcelled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE. Illustrated circular free.

Box 46, GROTON, N. Y.

PEEP-O'-DAY BROODERS.

A good incubator is important, but a good brooder is more so. You will never be satisfied until you have used the Peep-o'-Day. They are used extensively and almost exclusively at the Maine, Mass., Rhode Island and New York State Colleges, and they prefer them to other makes. Our new catalogue will be valuable to you.

OLD OR NEW SUBSCRIBERS CAN HAVE IT.

In order to introduce our readers who keep a horse to the Prince of American Horse Trainers, Oscar R. Gleason, and his great book, we make the above unparalleled offer.

BREAKING A VICIOUS KICKER.

Professor Gleason has no equal as a horse trainer, and his book, like its author, baffles comparison. People assemble in great numbers to see his public exhibitions. His power over vicious horses is marvelous.

In his book he tells in plain, straight-forward language just how to proceed in difficult cases with obstinate animals, and what means will bring success. The numerous illustrations make it impossible to misunderstand how to construct his appliances, and clearly show how they are to be used. No kind of ill-behavior or disease that affects the horse is overlooked. The book is replete from cover to cover with valuable information that the author has been years in compiling. As a result the UNITED STATES GOVERNMENT has greatly honored Professor Gleason by adopting his book as the RECOGNIZED AUTHORITY in the care and control of the horses of the United States cavalry. The book contains over

400 Pages, 300 Special Drawings

No more practical work than GLEASON'S HORSE BOOK could be obtained by the farmer. The information it contains may be the means of saving its owner SEVERAL HUNDRED DOLLARS WITHIN A YEAR.

A SYNOPSIS OF THE BOOK'S CONTENTS

History of the Horse; Educating the Horse; Teaching Horses Tricks; How to Buy; How to Feed, Water and Groom; Breeding and Raising Horses; Breaking and Taming Vicious Horses; Methods of Detecting Unsoundness; The Teeth; Horseshoeing, Diseases of the Horse.

This valuable book, in cloth binding, was originally sold at \$2.00 a copy, but our arrangement with the publishers enables us to offer a special premium edition TO OUR SUBSCRIBERS—old and new alike. Also

FARM AND FIRESIDE is the monarch of the world's rural press. It has over 310,000 subscribers. It is issued twice a month, and gives 20 to 24 pages each issue, each page 11 by 16 inches. Its contributors on agricultural subjects are the best in the land. In the course of a year every feature of farming receives attention. The "Fireside" part of the paper is devoted to the interests and entertainment of the farmer's wife and family. There are excellent short and serial stories, cut paper patterns, new receipts for cooking, canning fruit, and timely articles on home topics. Numerous illustrations are used.

"I live on a farm and keep house for my papa," says a young woman living in Panther, Ky. "My age is twenty-five. For ten years I have been afflicted with that dreadful disease, dyspepsia, and tried every kind of medicine that I could hear of, but found no relief in any of them until about two years ago, I tried a fifty-cent package of Ripans Tabules. Did I find relief? Yes, I did. I am no more a sufferer. Ripans Tabules did it. I can eat anything I want to. Before I commenced using them I could not eat highly seasoned food without suffering with my stomach. With truth I can recommend Ripans Tabules to any one suffering as I was. If they do not want to take my word for it let them try just one package and it will convince them what they will do, and then they will never consent to be without them for anything."

WANTED:—A case of bad health that RIFPANS will not benefit. They banish pain and prolong life. One gives relief. Note the word RIFPANS on the package and accept no substitute. RIFPANS, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

A RARE OPPORTUNITY
FARM-POULTRY
The Best and Most Practical Journal of Its Class
— AND —
GOOD HOUSEKEEPING
A High Class Monthly Magazine, Conducted in the Interests of the Higher Life of the Household.

\$2 In Value For \$1

Good Housekeeping occupies a position peculiarly its own, in that it is conducted in the interests of the higher life of the household, for it is devoted not only to practice, but to inspiration — to telling how the everyday affairs of life may be conducted, but always leading upward. Its departments, regular and special, are as numerous as the varied phases of the life of the household. It appeals to either sex, whether of young or of advancing years. It not only helps, but gratifies the physical, mental, and aesthetic natures of all its readers.

The following topics and lines of research are samples of what Good Housekeeping is doing for the dwellers in the homes of America:—

- Successful Kitchens.
- Solutions of the Domestic Help Problem.
- The Latest Hygiene.
- Home Handicraft of Various Kinds.
- Homemade Christmas Gifts, Illustrated.
- Truth About Dishonest and Adulterated Food.
- Famous Cookery Schools Described.
- People Who Have Uplifted Home Life, Illustrated.
- New Sources of Income.
- Tasteful House Furnishing, Illustrated.
- "Good Housekeeping Babies."
- Disadvantages and Advantages of Country Girls.

The whole magazine is dominated by a high purpose to be an ever ready help and inspiration toward making "the higher life of the household" a practical and delightful reality in every family, and a force in social and civic affairs.

Each number consists of 96 pages filled to overflowing with original and interesting reading, including many handsome and striking illustrations.

OUR ABSOLUTELY UNPARALLELED OFFER
By an arrangement just perfected we are enabled to offer this most useful and interesting magazine on the following special and remarkably liberal terms:—

FARM-POULTRY,	one year \$1.00	} Both for Only \$1.00
GOOD HOUSEKEEPING,	one year \$1.00	

We thus offer the two ablest and most representative journals of their class at the price of either one by itself, thus giving our readers an opportunity never before offered. Think of it: a handsome illustrated magazine, a year's numbers of which make an elegant volume of over 1,150 pages, all of which may be had without cost by every subscriber to Farm-Poultry, under this most remarkable offer. Surely this is the chance of a life time, and no one should delay or fail to take advantage of it.

A sample copy of Good Housekeeping will be sent to any address on receipt of eight cents in stamps, which should be sent to the publishers at Springfield, Mass., or Chicago, Ill.

Our New Catalogue

is published in five separate editions and printed, in addition to English, in the **French, German, Swedish and Spanish** languages. Why was this necessary? Merely to keep up with the constantly increasing demand for the

Successful

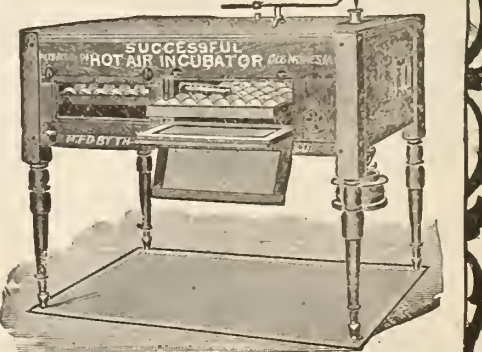

INCUBATORS AND BROODERS

and reliable information concerning them sought by people of foreign countries. This is the first incubator manufactory that has ever been compelled to adopt such a measure simply and solely from the reputation and recognized merits of its machines. It would seem impossible to hide the reputation of our goods. Those who are using them here at home will not wonder at this, as they are well acquainted with their merits. They know from experience that the **SUCCESSFUL INCUBATORS** will hatch every egg that can be hatched in any way, that they are entirely automatic in supplying heat, moisture and ventilation and that every chick hatched has the strength to grow. They know also that our **BROODERS** will successfully brood and grow every chick that can be grown in any way. They know also that our entire line of **SUCCESSFUL, ECLIPSE and CRESCENT INCUBATORS** and our complete line of **BROODERS** are each

\$500.00 IN CASH PRIZES

IF YOU CAN COUNT YOU CAN WIN

POULTRY SUCCESS, DES MOINES, IOWA

That bright, handsome, aggressive poultry paper, will pay to those who can count the dots in the above diagram correctly, \$500.00 in cash prizes, as follows:

FIRST PRIZE \$100; SECOND PRIZE \$50; THIRD PRIZE \$25; FOURTH PRIZE \$25; TWENTY-FIVE PRIZES \$2 EACH, \$50; 100 PRIZES \$1 EACH, \$100; TWO GRAND SPECIAL PRIZES \$150. TOTAL 131 PRIZES, AMOUNTING TO \$500.

Awards will be Made as Follows The person counting nearest the correct number gets first prize, next nearest second prize, and so on down the list. Should there be a tie for any prize it will be equally divided. To the one making the poorest count a "Consolation Prize" will be given.

Please Note. That there is no element of chance or guess work whatever about this. It is a test of skill, pure and simple. If you can count the dots correctly you can win. You have a definite basis to work on, something you do not have in a mere guessing contest. The number of prizes offered is so large you are bound to hit it somewhere.

Conditions... Contest is open to all, both old and new subscribers. Those now in arrears must pay up, and a year in advance, this will entitle them to compete. Send 50 cents for one year's subscription to **POULTRY SUCCESS**, and you will be entitled to one count, and just as many additional counts as you send yearly subscriptions at same rate. You can send 50 cents in silver securely wrapped in a letter.

...TWO GRAND SPECIAL PRIZES \$150.00...

These will be awarded as follows: Send \$1.00 for a three years' subscription, and if you win either the first or second prizes, we double it, and send you \$200.00 in the one case, or \$100.00 in the other. You will be entitled to THREE counts under this offer, and paper can be ordered sent to three different addresses one year each, instead of three years to one address, if you desire. A dollar bill will come safely, and save you charges for money order, or draft.

Contest Closes April 20th, 1901, at noon, and the names of all the winners will be published in our May 1st issue, and prizes paid the same day. If you would like to have a part of the \$500 make a careful count.

Very Important... At the close of the contest a key to the puzzle, which is so constructed as to prove the absolute correctness of the answer, on the basis of which the awards will be made, will be sent to everyone who requests it when sending subscription, and who encloses 10 cents in stamps to pay for it. All who take part should have this chart, as it settles the question as to the actual number of dots in the diagram.

A Word of Advice Don't make the mistake of thinking that this is "easy" and therefore go about it carelessly. It takes care to count those dots, and if you get them correct we predict you will win a prize. This a case where it will pay to take pains—perhaps you can use \$200.00 to advantage? Then go after it right and get it. Fill out this coupon and mail to us with 50 cents for one year's subscription, or \$1.00 for three years, if you wish to compete for those "two special prizes."

Make More Muscle
Also keep what you have in firm, flexible condition. Develop a body free from
aches and pains, if you wish to enjoy physical health, without which life loses
its most captivating charms. A brisk rub down with the great muscle nerve,
Johnson's Anodyne Liniment, after severe work or exercise, will strengthen
the muscles and invigorate the tired nerves. Originated by a Family Physician.
Every bruise, swelling, lame-
ness, should be
freely bathed
with Johnson's
Anodyne Lini-
ment. It is safe,
soothing, sure.
For severe
colds, Johnson's
Anodyne Lini-
ment cures more
quickly than any
other remedy.
For summer
complaints and
all pains in the
stomach, bowels,
kidneys, use
Johnson's Ano-
dyne Liniment
internally.
Professor ROBERT J. ROBERTS, of the Y. M. C. A. Gymnasium, of Boston, says:
"I can speak of the old Johnson's Anodyne Liniment in the highest terms. I have
used it when the boys have strained or overworked their bodies. It acts like magic
in reducing swelled joints and in removing soreness of the overworked parts.
At home my wife has used it with our boys and speaks most enthusiastically."

From any of the list of Breeds here named, made from
Original Drawings, by SEWELL.

Any one of these Drawings, if made to order, WOULD COST YOU \$15.00 or more.
The Illustrations herewith printed show the average size of the Electros, and
sample of how they will look when printed. The original drawing of either would
cost you on an order to Mr. Sewell, \$15 or more. You would then have to get
the drawing reduced to get an Electro like these, at a cost to you of \$1 to \$2
more. Therefore our offer is a very liberal one.

EVERY BREEDER SHOULD HAVE ONE OR MORE.

Any reader of FARM-POULTRY can get one or more of these Electros of any breed above named free of
cost to him, if he complies with the following conditions:

Our Offer. Send us \$1 cash, and the name and address of some poultry raiser
who is not now a subscriber to FARM-POULTRY, and
we will send them the paper for one year semi-monthly, and will
send you free of cost and postpaid an Electrotype of the above size
of any one breed you select from the above list. This is an unparalleled offer, and should be taken advantage
of at once by you.

N. B. If you want more than one breed send us a new subscriber and \$1 for each Electro desired,
and you can have one or all. As the new subscriber pays you the \$1.00, you get the
Electro free.

Remember, one new Subscriber and One Dollar for each Electro. Be sure to give the full name, post
office, and state of the new subscriber, as well as your own, and mention the breed or breeds you desire an
Electro from. Send all orders to us.

HOOSIER SCHOOLMASTER.

By **EDWARD EGGLESTON.**

Author of "The End of the World," "The Mystery of Metropolisville," "The Circuit Rider," "Rory," "The Hoosier Schoolboy," "The Graysons," "A History of the United States and its People, for the Use of Schools," "Duffels," etc., etc.

THE GREAT DIALECT STORY.

DESTINED TO RANK AS A CLASSIC! This Novel from its first appearance in serial form has enjoyed an undiminished popularity. It has been rendered into German, French, Danish and Russian. In England an edition of 10,000 copies was printed immediately after its appearance here. To Edward Eggleston as its author can justly be given the credit of being the leader in the most significant movement in American literature in our generation. Before "The Hoosier School Master" appeared the New England dialect had kept the field. Since its publication the Creole, the Cracker, the Pennsylvania German, the Georgia Planter, and the Negro, have found their way into our literature. It is a story of frontier life of a half century ago when Indiana was on the outskirts of civilization. It faithfully records, in the dialect of that section and period, a state of society which, in our rapid progress, has long since been a matter of history, but as recorded by the author, of most intense interest.

Over 100,000 sold, never at less than \$1.25 per copy, and the Special Library Edition \$1.50 each, but there are hundreds of thousands of people who have as yet never had an opportunity of securing "The Hoosier School Master." To these we give the chance to secure our new Popular Priced Edition.

Exact Size of Book 5 by 7 1-2 inches.

Total Value, \$2.25; all Sent for \$1.25, CASH.

Remember, the four papers to one address, one year, for the small sum of \$1.25, cash in advance, which is the price of *Farm-Poultry* and *A Few Hens* alone. N. B.—If you wish we will select the two other papers for you. Send \$1.25 and order that way, and we will select papers which will be of value to you.

You Save \$1.00 Cold Cash.

THE BEST!

Any paper can claim to be the best: Many do claim it: Only one paper proves it, and that one is *Farm-Poultry*; no other paper combines so many good features for Market Poultry Keepers or for Fancy Poultry Raisers. Compare *Farm-Poultry* with any or all other papers. Can you find one other that does not fail on some essential points? Other poultry papers are good: *FARM-POULTRY* is the best. Send all orders to us, with cash, stamps or money orders. Do not send checks unless you add 10cts. for exchange. No changes allowed after order is entered on our books. Postage added in the town where either paper is published. The postal laws require it.

BLANCHARD'S

WHITE LEGHORNS

The Leading Strain
— OF —
HEAVY LAYERS.

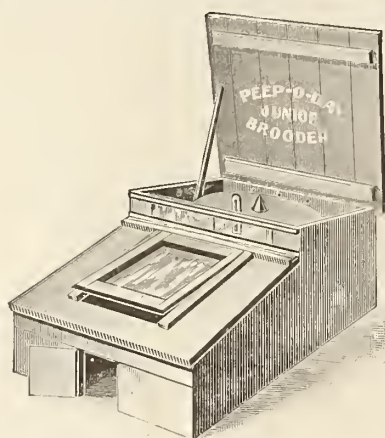

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, standard qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Stock for sale. Cockerels a specialty. Our birds are unequalled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE.

EGGS FOR HATCHING,

From Finest Stock, in Large or Small Lots.

BULL-STRONG!
...PIG-TIGHT...
An Illinois farmer said that after harvest he had fully 300 bushels of loose oats on the ground that he could not secure any benefit from, because the fence around the field would not turn dogs. Figure the loss for yourself. He also said, all this would have been saved if he had used the Kitzelman Woven Wire Coiled Spring Fence, and the value would have gone a long way towards paying cost of the fence. With the Duplex Machine, any farmer can make it himself at the actual cost of the wire. Catalogue free for the asking. KITZELMAN BROS., Box D23, Muncie, Ind.

Fall River, Mass., August 24, 1900.
F. P. Cassel, Dear Sir:—I have used this season
nearly 400 pounds of **Chick Manna.** It has given
better satisfaction than any chick food I ever used,
and I have been in the poultry business 35 years.
Yours truly,
ROWLAND G. BUFFINTON.

... **CRESENT FARM** ...

in the world. **HENRY M. LADD, Proprietor.**
Cleveland, Ohio, February 5th, 1901.
F. P. Cassel, Lansdale, Pa. Dear Sir:—We used
your **Chick Manna** last season and had marvelous
success. If you will give us the agency for Portage
and Summit Counties we can handle a large amount
of it for you. I shall be pleased to hear your terms.
Respectfully yours,
HENRY M. LADD.
Under date February 13, 1901, we have from the
Cresent Farm: "Among all the chicks we raised
last Spring fed on your **Manna**, we never lost one
by disease." Cordially yours,
HENRY M. LADD.

WINTER EGGS HOW TO GET THEM.

Selection, Care and Food of Laying Hens.

The above is the title of a new book. The latest in the Farm-Poultry series: **PRICE 25 cts.**
In many respects it will be the most valuable book we have ever published, because it treats of one
subject only, of which every poultry raiser, large or small, wants to know all that is new, or best,
namely, how to get the most eggs in winter when prices are high.
THE BOOK will be sent postpaid on receipt of 25 cents in cash or postage stamp; or we will
send the book and a year's subscription to Farm-Poultry both for \$1.

**WHAT'S
A
NAME? 'N**

More, infinitely more, than many people suppose.
Particularly is this true in a business sense. For instance, when
any individual or firm have conducted a business with such care as
to quality and reliability of goods, coupled with reasonable prices and
fair and honorable dealing with the public for a number of years, the
name of the individual or firm comes to be accepted as a positive guarantee
of high quality on everything with which it is connected. That is one of the
things that is in a name. This is especially true of the

"OLD RELIABLE"
**INCUBATORS AND
BROODERS**

The name stands for unequalled excellence in incubators and brooders. As a further evidence of
a name we may say that this is not only true in this country but it is equally true in more than fifty
foreign countries, where the "Reliables" are now being used to the exclusion of other machines of
this class of both home and foreign make.

"Reliables" at the Paris Exposition.
We shall further increase our hold on foreign popular favor by making one of our characteristic
complete exhibits at the Paris Exposition of 1900.

The 20th Century Catalogue
of more than 160 pages tells more in detail. We cannot dwell at length upon the merits of the
Reliables in this space. It contains in addition more of value to poultry people than has ever
been crowded into one catalogue. We send it to interested parties for 10c. to pay postage.

Our Reliable Copper Pillant Leg Bands
are undoubtedly the best bands made. Easy to apply and sure to stay. Marked in
plain, large figures and cheap. 12 bands for 20c; 50 for 50c; 100, 80c; 500, \$3.75;
1,000, \$7.00. We are making a specialty of

The Reliable Exhibition Coops
They are light, strong and easy to open. Made in four regular sizes.
Neatly painted and finished. Are easily cleaned and are very durable.
They make poultry look neat and clean on the show benches.

BLANCHARD'S WHITE LEGHORNS

The Leading Strain
— OF —
HEAVY LAYERS.

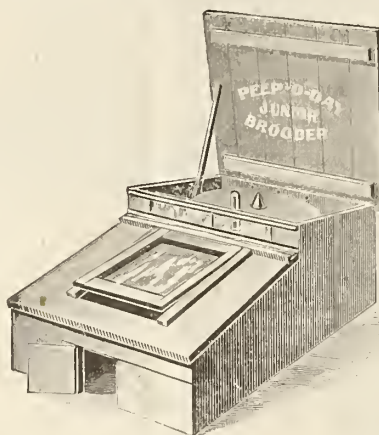

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Stock for sale. Cockerels a specialty. Our birds are unequalled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE.

Jackson's White and Buff Wyandottes

Are winners the world over. My White Wy. have
 won highest honors for many years at leading shows,
 scoring as high as 94. Are doing as well for my
 patrons. My Buff Wyandottes are of same type.
 These are only a few of many letters of same tone:
 Owosso, Mich., January 15, 1900.
 Mr. J. H. Jackson, Hudson, Mass. Dear Sir—Talk
 about winners, I think you have the only ones. I
 have made a clean sweep at the great Detroit show.
 I carried off six prizes, making the rest take their hats-
 off, besides winning first cockerel, first hen, and first
 pen at our show in Owosso in December. My 12 birds
 at Detroit average score was 94 points each. Your
 birds are white and none better in shape. I cheer-
 fully recommend you to all who wish good stock.
 Yours truly,
 W. S. BEEBE.

Owosso, Mich., Jan. 25, 1901.
 Mr. J. H. Jackson, Hudson, Mass. Dear Sir— I
 have again made another great record on your strain
 of White Wyandottes. At late Detroit show, won 1st
 and 2d cockerel; 1st, 2d and 3d pullet; 4th cock; 2d hen;
 1st pen. The last two cockerels you sent helped very
 much. Wishing you success with your strain, I
 remain, Yours respectfully,
 W. S. BEEBE.

Salisbury, Mass., December 8, 1900.
 J. H. Jackson, Hudson, Mass. Dear Sir— Perhaps
 you would like to hear what I raised from your eggs.
 I entered six of them at Amesbury (five of yours) in
 strong competition. Two scored 94, one 95, one 94, one
 92—very good from two sittings of eggs. Entered one
 pullet, single, was tied on score for first. She weighed
 over eight pounds. Won 2d on pen. They were all
 above standard weight; were hatched near first of
 May. Have been laying some time. Was not slow
 on Buff Wyandottes from sitting purchased of you.
 Won second, and tied with third on pullet. Have
 mentioned your name to a number of our members
 for your square dealings. Thanking you for using
 me so honest, I am, respectfully,
 C. B. FROST.
 Eggs \$3 per sitting; 2 sittings \$5 from same. I hatch
 from, are line bred for laying as well as fancy. Have
 helped others to front, can help you. Circular free.

Wright's Wh. Wyandottes ARE THE STAY WHITE KIND.

At Milford, Mass., Dec. 1900, in strong competition my birds won 1st cockerel, 1st pen, 2d and
 4th pullet, and five specials. At South Framingham, Dec. 18-21, 1900, in a very hot class I won 1st
 hen 94; 1st pullet 93; 3 specials and the silver cup for the five highest scoring White Wyand-
 ottes. Eggs from pen No. 1, which contains all my prize winners; no bird in this pen scores less
 than 94, \$5 per 15. Eggs from five other fine pens, \$2 per 15; \$5 per 45. Can spare only a limited num-
 ber from pen No. 1.

HOW MUCH CAN I SAVE?

This is a question that every man should ask himself when it comes to a business proposition. For instance, we manufacture vehicles and harnesses and sell them to you direct from our factory at wholesale prices. On this plan the saving to you is **about 35 per cent;** that is, you would have to pay a local dealer or agent about that much more than you pay us for the same quality of goods. Is not this item worth saving? We make 173 styles of vehicles and 65 styles of harnesses and are the largest manufacturers of vehicles and harnesses in the world selling to the consumer exclusively. We make every article we sell and ship our goods anywhere for examination and guarantee safe arrival. You have the advantage of large selection, newest designs, latest styles, &c. Above all you have a guarantee of quality at a reasonable price. **141-page illustrated catalogue FREE.**

Every Fruit Grower Should Read
R. M. Kellogg's New Book Entitled
GREAT CROPS
SMALL FRUIT
AND HOW TO GROW THEM. The author has grown the largest crops of fancy fruit ever produced on an acre. In his experimental grounds are single plants which yield over **FOUR QUARTS** each of fine large berries. His customers have done as well. This has been accomplished by **SCIENTIFICALLY BREEDING** up plants to a high fruiting vigor so they throw their energies in the development of fruit instead of useless runners. The profit comes from a big crop of big berries that sell at sight to regular customers. This book tells you all about how it is done. **THE CHEAPEST PLANT** is the one that will give you the best fruit and most of it. You can't afford to play second fiddle on the market by using scrub plants. The only stock of scientifically grown thoroughbred plants in the country for spring planting. A GREAT BOOK FREE!

A VIEW OF THE ESTABLISHMENT OF THE DINGEE & CONARD CO., WEST GROVE, PA.
Thirty acres under cultivation. Seventy Greenhouses. Seven acres under glass. Annual output two million plants, over a million of which are Roses. These are a few of the convincing facts to which we point in support of our claim of being **THE LEADING ROSE GROWERS OF AMERICA.**
We beg to announce that the thirty-second annual edition of **OUR NEW GUIDE TO ROSE CULTURE** is just out for 1901, and will be sent **FREE**, together with a sample copy of the leading floral magazine—**SUCCESS WITH FLOWERS**, to all who ask for them. This book truthfully describes and gives interesting information of the most complete stock of Roses in America. Over seven hundred different kinds are offered, including all the well known standard sorts and hundreds of new varieties that cannot be had elsewhere, including our famous new Rose—**HELEN GOULD**.—This is the greatest Rose book ever sent out in this country. It describes, as well, all other flowers of worth, including the finest Chrysanthemums, Hardy Pinks, Carnations, Violets, Perennials, Hardy Flowering Shrubs, Ornamental Grasses, Hardy Vines, Bulbs, Small Fruits, Flower and Vegetable Seeds. The cover is a marvel of beauty, printed in ten colors and gold, together with numerous lithographed plates, making a book of 114 pages and supplement, containing over two hundred half tone illustrations made from photographs, new and revised descriptions, and is altogether a valuable book of reference. Remember it will be sent **FREE** for the asking, together with a sample copy of the leading floral magazine, **SUCCESS WITH FLOWERS**. It will pay you to see this book before buying elsewhere. It is too valuable to be distributed indiscriminately, and this offer is therefore made only to those who are interested in flowers. A postal card will place before you the largest stock of flowers in America. We guarantee the safe arrival of all goods to any Post Office or Express Office in the United States. We are pioneers in safely sending flowers by mail. We have upwards of one million customers on our books, many of whom we have served continuously for more than a quarter of a century.

For You Only.

The above headline means that we are talking especially to whoever reads this advertisement. We mean it FOR YOU ONLY, now and here. We shall try to tell something interesting, very interesting, FOR YOU ONLY. Read the following carefully.

A bright, earnest reader of FARM-POULTRY said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his FARM-POULTRY at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get Farm-Poultry for less. I would rather pay the full dollar and get Farm-Poultry alone."

That, we believe, is the sentiment of many. FARM-POULTRY is actually worth \$2.00 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. F.-P. will continue to give poultry news, as reported to us for its columns.

SEND US AT ONCE, 75 cents and we will send you FARM-POULTRY for ONE YEAR, semi-monthly, 24 issues. Or send us \$1.00 cash NOW, and we will send FARM-POULTRY TWO YEARS from date of receipt of order.

This Offer is for OLD OR NEW Subscribers.

TAKE NOTICE:

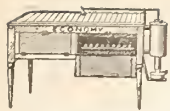

If you are a subscriber now, send us \$1.00 AT ONCE and extend your subscription for TWO YEARS from expiration, as this offer may be withdrawn without notice.

This offer applies only to orders received after March 1st, 1901.

This will give you the best rate we ever gave any one by clubbing, and you buy only what you want, namely, FARM-POULTRY, the best poultry paper published in the whole world, as our great subscription list in this and foreign countries fully testifies.

FOR CLUBBING: If you want any other poultry or agricultural paper, or papers, we will supply them as follows:—For 50-cent a year papers, 30 cts.; for \$1.00 a year papers, 75 cts. each annually. Add the amount of all such wanted to our first offer as taken by you, and remit us the full amount with your first order. Thus you can get what is wanted FOR YOU ONLY.

Send all orders to us, with cash, stamps or money orders. Do not send checks unless you add 10 cts. for exchange. No changes allowed after order is entered on our books. Postage extra in the town where either paper is published. The postal laws require it. A one dollar bill will reach us if in a letter plainly addressed to FARM-POULTRY PUB. CO., Boston, Mass.

ORIGIN OF A PATENT MEDICINE TRADE-MARK.*

By the Inventor.

I sat at the breakfast table; breakfast had been eaten and the morning paper had been read. My mind took up the idea of an advertisement for the new pocket and marked here represented; I then took from my pocket a ten-cent piece and placing it over the a circle about as here shown. that there was an excellent opportunity for making the second word interlace with the

sult: It was quite natural at this point to apply the ten-cent piece and describe another arc of a circle, as is here shown. I then, while studying upon the unpromising result thus coin as at first, and nearly shown. What more natural should be to treat the arc in the same way. I was without any factory result. Again I myself applying the coin mechanically and the next result is here shown. What more natural than at this point to mechanically fill up the vacant spaces with pencil marks, as are for the that I grace the eye.

Its being new, but on exhibit-experts I soon learned that that has never been used. I trade-mark and intend mak-with it in due time.

The story of the origin of a trade-mark which is reproduced above was first printed in January, 1892. Since then the trade-mark referred to has become fairly well known to the public. The Ripans Tabules were advertised to the amount of a hundred thousand dollars in 1892, and have been advertised to an amount exceeding that sum every year since. A good illustration of the cumulative value of advertising is found in the fact that with practically the same amount of publicity, the sales of the Tabules for the first three weeks of the seventh year exceeded the total sales for the first three years entire—that is, the quantity sold in the first twenty-one days of the seventh year exceeded the total quantity disposed of in thirty-six months of the beginning of the long campaign.

WANTED:—A case of bad health that R-I-P-A-N-S will not benefit. They banish pain and prolong life. One gives relief. Note the word R-I-P-A-N-S on the package and accept no substitute. R-I-P-A-N-S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

A RARE OPPORTUNITY FARM-POULTRY

The Best and Most Practical Journal of Its Class

GOOD HOUSEKEEPING

A High Class Monthly Magazine, Conducted in the Interests of the Higher Life of the Household.

\$2 In Value For \$1

Good Housekeeping occupies a position peculiarly its own, in that it is conducted in the interests of the higher life of the household, for it is devoted not only to practice, but to inspiration—to telling how the everyday affairs of life may be conducted, but always leading upward. Its departments, regular and special, are as numerous as the varied phases of the life of the household. It appeals to either sex, whether of young or of advancing years. It not only helps, but gratifies the physical, mental, and aesthetic natures of all its readers.

The following topics and lines of research are samples of what Good Housekeeping is doing for the dwellers in the homes of America:—

Successful Kitchens.
Solutions of the Domestic Help Problem.
The Latest Hygiene.
Home Handicraft of Various Kinds.
Homemade Christmas Gifts, Illustrated.
Truth About Dishonest and Adulterated Food.
Famous Cookery Schools Described.
People Who Have Upheld Home Life, Illustrated.
New Sources of Income.
Tasteful House Furnishing, Illustrated.
"Good Housekeeping Babies."
Disadvantages and Advantages of Country Girls.
Advantages and Disadvantages of City Girls.
Women's Exchanges.
"The Best Way," in all Kinds of Housework.
Mistakes of Young Housekeepers.
Original Recipes from Famous Cooks and Cooking Teachers.
The Four-footed Cousins.
Fathers and Sons.
Household Economics.
New Ideas in Fancy Work.
Changes and Tendencies in Home Life.
New Fashions and their Wearers.
Diseases of Children, etc.

The whole magazine is dominated by a high purpose to be an ever ready help and inspiration toward making "the higher life of the household" a practical and delightful reality in every family, and a force in social and civic affairs.

Each number consists of 36 pages filled to overflowing with original and interesting reading, including many handsome and striking illustrations.

OUR ABSOLUTELY UNPARALLELED OFFER

By an arrangement just perfected we are enabled to offer this most useful and interesting magazine on the following special and remarkably liberal terms:—

FARM-POULTRY, one year \$1.00 } Both for Only **\$1.00**
GOOD HOUSEKEEPING, one year \$1.00 }

We thus offer the two ablest and most representative journals of their class at the price of either one by itself, thus giving our readers an opportunity never before offered. Think of it: a handsome illustrated magazine, a year's numbers of which make an elegant volume of over 1,500 pages, all of which may be had without cost by every subscriber to Farm-Poultry, under this most remarkable offer. Surely this is the chance of a life time, and no one should delay or fail to take advantage of it.

A sample copy of Good Housekeeping will be sent to any address on receipt of eight cents in stamps, which should be sent to the publishers at Springfield, Mass., or Chicago, Ill.

BLANCHARD'S WHITE LEGHORNS

The Leading Strain —OF— HEAVY LAYERS.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Stock for sale. Cockerels a specialty. Our birds are unexcelled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE.

PEEP-O'-DAY BROODERS.

A good incubator is important, but a good brooder is more so. You will never be satisfied until you have used the PEEP-O'-DAY. They are used extensively and almost exclusively at the Maine, Mass., Rhode Island and New York State Colleges, and they prefer them to other makes. Our new catalogue will be valuable to you.

RHODE ISLAND REDS, BAR. PLYMOUTH ROCKS, WHITE WYANDOTTES,

Our best breeding pens are headed by birds that have taken first prizes. Eggs, \$2 a sitting; \$5 for three sittings. Write for special price on larger quantities; incubator eggs, \$5 per 100. Having 3,500 birds, we have been enabled to select for our breeding pens exceptionally fine strong healthy birds, all large brown egg strains, and heavy layers.

We were unable to accept all orders received last season. Orders received at once we can book from our best pens.

Don't delay ordering if you want to raise prize winners.

Visitors always welcome. Call and inspect our stock.

SELLS EGGS

FROM HIS BEST.

In buying hatching eggs to improve your stock it always pays to buy the best, regardless of price, and to buy of a breeder with a reputation and experience in mating for best results.

MANY OF THE WINNERS

At the largest shows held this season from Maine to California, were hatched from eggs sold by us last season. We have had 25 years experience, and use only line bred birds of the highest merit, and can sell you eggs that will produce winners.

 E. B. THOMPSON, Lock Box 401, Amenia, Dutchess Co., N. Y.

Four Years in Succession was the most remarkable ever achieved in the realm of poultry exhibitions. This record is by many points the highest ever accomplished in the Annals of the New York Show, winning during four years in succession more than three times as many First Prizes as any other exhibitor, and as many First Prizes as ALL COMPETITORS COMBINED, besides more than twice as many cups and specials as all, including the Superb Challenge Trophy, value \$100, for best cock, cockerel, hen, pullet and exhibition pen; \$100 Silver Cup for finest exhibit; Grand Special Prize, Sweepstakes Cup, value \$100, presented by President for the best Plymouth Rock cock, cockerel, hen and pullet, any variety.

MY CLEAN SWEEP OF 1st, 2d, 3d, 4th, and 5th PRIZES ON PULLETS has never been approached in Madison Square Garden, and stands alone and unequalled. The "Ringlets" also hold the World's Record of 1st on Exhibition Pen at New York, three years in succession. With their 1900 Record the "Ringlets" have won at New York a grand total of 77 Prizes—31 of these are 1st and specials, being 17 more 1st and special prizes than won by any competitor in the history of the show.

PROOF OF QUALITY:

Morrowville, Kas., Feb. 6, '01.

Mr. E. B. Thompson:

Dear Sir—My winnings on Barred Rocks at the Washington, Kas., show, January, 1901, were 1st, 2d, and 3d cockerels; 1st, 2d, and 3d pullets; 1st and 2d hens; 1st, 2d, and 3d on breeding pens; sweepstakes on parti-colored birds, and silver cup for best display Barred Rocks.

These birds were all hatched from eggs bought of you. I will want more eggs in the spring.

Yours respectfully,

FRANK MCCORMACK.

The \$5 Champion Brooder

"It is known by its works."
THE WORLD'S GREATEST BROODER

Its years of success, under the most severe trials ever given a portable brooder, constitute a record never paralleled in the history of artificial poultry raising. The Champion Brooder has never failed to successfully bring its chicks through the worst storms and blizzards of modern times. It is the only brooder that will work successfully either out doors or in doors at all seasons of the year. 'Tis the brooder at the lowest price. Thousands of "Champions" are in use in every country on the globe. We are the largest exclusive brooder manufacturers in the world. Our elegant catalogue free.

SINGLE AND ROSE COMB.

My birds fit the name; they are red, deep buff undercolor, good combs, orange legs, bay eyes, and the proper shape. They will make an ideal fowl for the farmer, as they are as hardy and vigorous as any crossbred fowl, and are unsurpassed as winter layers. They make excellent poultry, their skin being a rich yellow, and free from dark pin feathers. They are just what you want for broilers and roasters, as they are always plump, and have an extra long keel for breast meat. In strong competition my birds have won 16 first and 12 second premiums this season.

At Boston won 6 premiums on 6 entries.
At New York won 1st on R. C. cock, and 2d on hen; in S. C. won 2d on hen, 3d on cock and cock's.

This is the M. M. S. Poultry Fencing

Exactly as It Looks When Erected.

This fencing is conceded by everyone who has ever used it, to be the strongest, most serviceable, most economical fencing on the market. It is predicted by those familiar with the merits of

M. M. S. FENCING

That before long it will be used exclusively by all poultrymen. It never fails to give perfect satisfaction. It is made of the very best galvanized steel wire, and the greatest care is used in its construction. No. 19 wire is the regular size for poultry fences, but we also make it of No. 16 wire, which is strong enough for ordinary stock, and very generally used for lawns, division fences, and to enclose gardens.

Perhaps You Know

How annoying and unsatisfactory it is to use a fencing which requires a top or bottom rail to prevent the sagging between the posts. **M. M. S. Fencing** does away entirely with all this bother. It retains its shape perfectly with posts 16 to 20 feet apart, giving you a fence when completed that is at once a pride and a comfort, and on which

YOU HAVE SAVED 50 PER CENT

On the completed cost. Just try our **M. M. S. FENCING** this year, and we are confident you will join the host of contented users from whom we have received nothing but words of praise for the quality, strength, service and economy of **M. M. S. POULTRY FENCING**. We have agents in the principal eastern cities.

Union Lock POULTRY FENCING

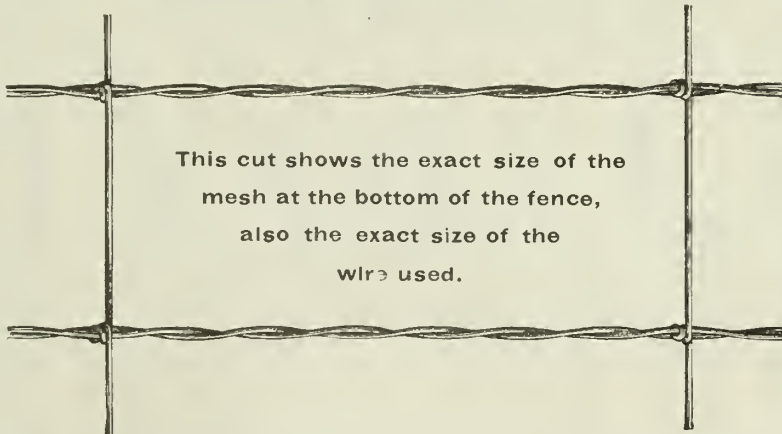

This cut shows exactly as it looks between the posts.

Here is a new, thoroughly up to date fencing for Poultry Yards, which is so superior in every way to the old two-inch mesh wire fence, that its exclusive use is assured. In the wider sizes it is **no more expensive** than the regular 2-inch mesh netting, and the fine mesh at the bottom, where it is needed for small chicks, will be at once recognized by every practical poultryman as a great advantage. It will not sag or slack as poultry netting does, and is undoubtedly the neatest, most durable and most economical fence on the market.

It is Practically Indestructible

As every intersection is **securely locked**, so that it is impossible to pull it apart at the joints. Each horizontal cable consists of two strands of No. 20 wire, twisted together, which treatment allows a slight stretch, or give, so that contraction in severely cold weather will not break it.

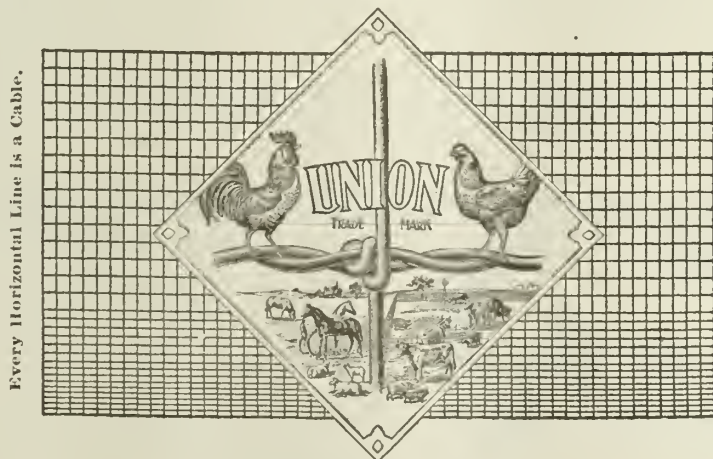

This cut shows the exact size of the mesh at the bottom of the fence, also the exact size of the wire used.

Because of its strength and construction this fencing has absolutely no need of a top or bottom rail, and requires only about one-half the number of posts needed for poultry netting. This is a great saving in the completed fence.

Here is a Feature

Which will appeal to every user of fencing. On account of the picket being at right angles to the cables, this fence will fit any unevenness of the ground without cutting. The trouble caused by uneven ground is entirely done away with by the **UNION LOCK POULTRY FENCE**, and this is a convenience which is attained by the **UNION LOCK**, and by no other.

The Drug Habit.

When the nervous system of a person gets run down, either from mental or physical overwork or dissipation, and sleeplessness is the result, how natural it is to resort to opiates and sedatives to compel sleep. The effect is at first satisfactory, but if the practice is persisted in, the system soon demands an increase of the dose and gradually the whole system becomes impregnated. The stomach becomes deranged, the digestion bad, the circulation of the blood poor, the mental faculties dim and the physical strength impaired. The end is mental and physical suffering most terrible. Many persons unconsciously begin the drug habit by using remedies, the ingredients of which they know nothing about, for the cure of dyspepsia, constipation, headache, biliousness and like troubles.

The fact that the exact formula of Ripans Tabules has been made known ever since the remedy was first introduced, has had much to do with its success. Everybody knows that rhubarb, ipecac, peppermint, aloes, nux vomica and soda are healthful. A great throng of people carry Ripans with them every day and take one whenever they feel the need. They kill dyspepsia and kindred evils quickly and there is no danger of acquiring the drug habit. You know just what you are taking.

WANTED—A case of bad health that R-IP-A-N-S will not benefit. They banish pain and prolong life. One gives relief. Note the word R-IP-A-N-S on the package and see it on no substitute. R-IP-A-N-S, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

Easy and Profitable Gardening.

The thoughts of back-breaking, hand-hoeing and weeding prevents many a man from making money out of a garden. The easier, surer and better way is to use one of our "Planet Jr." Double Wheel Hoes. They cultivate perfectly all garden crops, astride or between the rows. Throw the dirt to or from the row; cultivate the middles; break up the crust and level the surface. They plow, turning furrow either right or left, hill up and furrow out. Have attachments for all this work. Adjustable to any width of row. Strong, durable and lasting. Every attachment of best hardened polished steel. Then, too, they are so easy to handle; children use them readily.

Our 1901 Catalog (edition 350,000) illustrates and fully describes these and our full line of "PLANET JR." Hill and Drill Seeders, Wheel Hoes, Horse Hoes, Cultivators, Two-Horse Cultivators, Sugar Beet Seeders and Cultivators, etc. Prices greatly reduced for 1901. But send and get a free copy of the catalog and learn all about "PLANET JR." and how they are used at home and in foreign countries.

EVERY MOTHER SHOULD
Have it in the House
To cure the common ailments that may occur in every family as long as life has woes.

JOHNSON'S ANODYNE LINIMENT
has been used and indorsed since 1810, to relieve or cure every form of Pain and Inflammation. Is Safe, Soothing, Sure. Otherwise it could not have existed for almost a Century.

JOHNSON'S ANODYNE LINIMENT
Is strictly a family remedy for Internal as much as External use
To cure Colds, Croup, Coughs, Catarrh Cramps and Colic it acts promptly.

ORIGINATED BY AN OLD FAMILY PHYSICIAN.

There is not a medicine in use which possesses the confidence of the public to a greater extent than Johnson's Anodyne Liniment. For almost a century it has stood upon its intrinsic merit, while generations after generations have used it. The best evidence of its virtue is the fact that in the state where it originated the sale is steadily increasing. You can safely trust what time has indorsed.

I, S. JOHNSON, Esq.—Fifty years ago this month, your father, Dr. Johnson, left me some Johnson's Anodyne Liniment. I have sold it ever since. I can most truly say that it has maintained its high standard and popularity from that time to the present.

MALE BIRDS NOW IN BREEDING PENS AT BEAVER HILL FARM, T. E. Orr, Prop'r.

- 1st.—Cock that won 1st at Chicago and 3d at Pittsburgh; when in condition, the most perfect male we have yet seen.
- 2d.—Cock that won 2d at New York and 2d at Pittsburgh; also 3 special at N. Y., one for best shaped male. A handsome bird—wt. 10 lbs.
- 3d.—Cock, bought at Pittsburgh show, that won 1st at Erie, 1st at Cleveland, 3d at New York, and 1st at Pittsburgh; has the most perfect plumage we have ever seen on a male bird.
- 4th.—The Cockerel that won 1st at New York, not entered elsewhere. Quite similar in plumage to No. 3; fine in shape and comb.
- 5th.—The Cockerel that won 4th at Chicago and 1st at Pittsburgh. Very rich, dark plumage; said by many entitled to the plumage special at Chicago.
- 6th.—The Cockerel that headed 1st pen at Pittsburgh. Artist E. S. Comings, one of the originators of Wyandottes, selected him for skelting at Pittsburgh, among all the above, as the handsomest Wyandotte in shape and plumage he had ever seen.
- 7th.—A Cockerel, never shown, almost exact duplicate No. 6, but with a more perfect comb.

All Have Very Bright Yellow Shanks.

The most serious defect in the lot is on No. 3, the greatest prize winner.

They are now properly mated to FIFTY FINE FEMALES

16 of which have been entered a total of 20 times this year at 7 leading shows, and have won 8 Firsts, 4 Second, 4 Third and 2 Fifth prizes, getting left only twice.

For You Only.

The above headline means that we are talking especially to whoever reads this advertisement. We mean it **FOR YOU ONLY**, now and here. We shall try to tell something interesting, very interesting, **FOR YOU ONLY**. Read the following carefully.

A bright, earnest reader of **FARM-POULTRY** said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his **FARM-POULTRY** at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get Farm-Poultry for less. I would rather pay the full dollar and get Farm-Poultry alone."

That, we believe, is the sentiment of many. **FARM-POULTRY** is actually worth \$2.00 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. **F.-P.** will continue to give poultry news, as reported to us for its columns.

BLANCHARD'S WHITE LEGHORNS

The Leading Strain

—OF—

HEAVY LAYERS.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white (amer) marked eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep all it all summer. Our birds are unexcelled for introducing new blood, or as foundation stock. Jackson's White and Buff Wyandottes

Are winners the world over. My White Wy. have
won highest honors for many years at leading shows,
scoring as high as 96. Are doing as well for my
patrons. My Buff Wyandottes are of same type.

These are only a few of many letters of same tone:
Owosso, Mich., January 13, 1900.

Mr. J. H. Jackson, Hudson, Mass. Dear Sir—Talk
about winners, I think you have the only ones. I
have made a clean sweep at the great Detroit show.
I carried off six prizes, making the rest take their hats
off, besides winning first cockerel, first hen, and first
pen at our show in Owosso in December. My 12 birds
at Detroit average score was 94 points each. Your
birds are white and none better in shape. I cheer-
fully recommend you to all who wish good stock.
Yours truly,
W. S. BEEBE.

Owosso, Mich., Jan. 23, 1901.
Mr. J. H. Jackson, Hudson, Mass. Dear Sir—I
have again made another great record on your strain
of White Wyandottes. At late Detroit show, won 1st
and 2d cockerel; 1st, 2d and 3d pullet; 4th cock; 2d hen;
1st pen. The last two cockerels you sent helped very
much. Wishing you success with your strain, I
remain, Yours respectfully,
W. S. BEEBE.

Salisbury, Mass., December 9, 1900.
J. H. Jackson, Hudson, Mass. Dear Sir—Perhaps
you would like to hear what I raised from your eggs.
I entered six of them at Amesbury (five of yours) in
strong competition. Two scored 94, one 95, one 94, one
92—very good from two sittings of eggs. Entered one
pullet, single, was tied on score for first. She weighed
over eight pounds. Won 2d on pen. They were all
above standard weight; were hatched near first of
May. Have been laying some time. Was not slow
on Buff Wyandottes from sitting purchased of you.
Won second, and tied with third on pullet. Have
mentioned your name to a number of our members
for your square dealings. Thanking you for using
me so honest, I am, respectfully,
C. B. FROST.

Eggs \$3 per sitting; 2 sittings \$5 from same 1 hatch

How Many Paid Admissions Will There Be to the Pan-American
Exposition, Buffalo, N. Y., May 1st to Nov. 1st, 1901?

The numbers of paid admissions to previous expositions were:—Paris, 1878,—12,263,847; Paris, 1883,—28,149,353;
Chicago, 1893,—21,447,212; Omaha, 1898,—1,778,250. If you can guess anywhere near the correct number, you have a
chance of sharing in the following offer of

\$500.00 Cash Reward!

For the nearest correct guess of the number of paid
admissions to the Pan-American Exposition, we will pay a
cash prize of \$100

For the Second nearest correct guess, a cash prize
of \$75

For the Third nearest correct guess, a cash prize
of \$50

For the Fourth nearest correct guess, a cash prize
of \$25

For the next to nearest correct guesses, a cash prize

For the next 20 nearest correct guesses, a cash prize
to each of \$5

For the next 50 nearest correct guesses, a cash prize
to each of \$1

84 Cash Prizes, amounting in all to \$500.00.

The Contest will be decided as follows: The Hon. William J. Buchanan, Director-General of the Exposition,
has written us that he will, at the close of the Exposition, furnish us a certified statement of the number of paid admis-
sions. This statement and all guessing coupons will be turned over to a committee, composed of the following
eminent gentlemen: Hon. Thomas Butler, Member of Congress from the Sixth Pennsylvania District; Mr. H. N.
McKinney, of the N. W. Ayer & Son Advertising Agency, Philadelphia, and Mr. E. Pusey Passmore, Cashier of
the National Bank of Avondale, Pa. These gentlemen will decide the contest and award the prizes. The names of
the winners, their addresses, and the numbers guessed, will be published in "Success with Flowers."

Guesses may be registered from now until the close of the Exposition on October 31. Guesses bearing post-mark
later than this date will not be eligible. Money equally divided 11 more than one correct guess.

The only condition attached to this contest is that each person registering a guess must send either 25 cents, 40 cents
or 50 cents for a year's subscription (see special offer below) to "**SUCCESS WITH FLOWERS**,"
the only magazine published in the United States entirely devoted to floriculture. It tells amateurs how to grow
and care for their house or garden plants. It answers all questions pertaining to this subject. It is published
monthly, and has 32 pages, magazine size. It costs but a small sum. It is worth much more.

A Liberal Offer . . . **20 Superb Flowers Free!** . . . A Chance for Everyone.

To every person sending us 50 cents for a year's subscription, or 40 cents in clubs of 5 (see special offer below), we
will send free of all cost the following collection of summer-flowering bulbs. Sure to grow and bloom. They will produce
quantities of flowers for you. They represent a whole flower garden in themselves. Do not miss this grand opportunity.
Remember, this collection is absolutely free, and will be sent postpaid to any address in the U. S., Canada or Mexico.

1 **Little Gem Callia.**—Sells 15 cents each. Grows but
12 inches high, and produces its snow-white flowers with
the greatest freedom.

brated strain in existence. Each bulb sure to bloom.

1 **Montbretia Crocosmiaeflora.**—Produces enor-
mous spikes of trumpet-shaped, orange-scarlet flowers.

2 **Cinnamon Vine.**—A beautiful, hardy climber. Large,
deep-green foliage and delicate white blossoms.

1 **Amaryllis Snow Queen.**—Fine white, lily-like flow-
ers, produced in great profusion.

1 **Ever-Blooming Cann.**—We shall send a new vari-
ety, which will attract attention in any yard.

1 **Tuberous-Rooted Begonia.**—Sells at 15 cents
each. Blooms continuously, bearing large flowers.

Wright's Wh. Wyandottes

ARE THE STAY WHITE KIND.

At Milford, Mass., Dec., 1900, in strong competition my birds won 1st cockerel, 1st pen, 2d and 4th pullet, and five specials. At South Framingham, Dec. 18-21, 1900, in a very hot class I won 1st hen 94; 1st pullet 95; 3 specials and the silver cup for the five highest scoring White Wyandottes, 472 points. Eggs from pen No. 1, which contains all my prize winners; no bird in this pen scores less than 94, \$5 per 15. Eggs from five other fine pens, \$2 per 15; \$5 per 45. Eggs from these pens will hatch winners for the big shows next winter. A fair hatch guaranteed.

CHAPMAN'S ROCKS.

Winners of first prize Breeding Pen, Boston, 1901, novice class. Exhibition matings \$2 for 15 eggs. Choice breeders \$1 for 15 eggs. Incubator eggs \$8 and \$5 per hundred. If you are interested in high grade exhibition or heavy laying Plymouth Rocks, write me for particulars.

**CHAPMAN POULTRY FARM,
HARTFORD, CONN.**

This is the M. M. S. Poultry Fencing

Exactly as It Looks When Erected.

This fencing is conceded by everyone who has ever used it, to be the strongest, most serviceable, most economical fencing on the market. It is predicted by those familiar with the merits of

M. M. S. FENCING

That before long it will be used exclusively by all poultrymen. It never fails to give perfect satisfaction. It is made of the very best galvanized steel wire, and the greatest care is used in its construction. No. 19 wire is the regular size for poultry fences, but we also make it of No. 16 wire, which is strong enough for ordinary stock, and very generally used for lawns, division fences, and to enclose gardens.

Perhaps You Know

How annoying and unsatisfactory it is to use a fencing which requires a top or bottom rail to prevent the sagging between the posts. **M. M. S. Fencing** does away entirely with all this bother. It retains its shape perfectly with posts 16 to 20 feet apart, giving you a fence when completed that is at once a pride and a comfort, and on which

YOU HAVE SAVED 50 PER CENT

On the completed cost. Just try our **M. M. S. FENCING** this year, and we are confident you will join the host of contented users from whom we have received nothing but words of praise for the quality, strength, service and economy of **M. M. S. POULTRY FENCING**. We have agents in the principal eastern cities.

quite evenly clouded, but highest at the small end; has the air space in the large end clearly defined, and the line marking the air space remains fixed as the egg is turned before the light. An egg containing a dead germ may show more faintly clouded than a fertile egg, as if less advanced, or the germ may be discernible, black and moist, and in a few days, as in the live egg. As the oviposition proceeds and the egg becomes decidedly rotten, it appears more unevenly clouded, and the line of the air space tends to remain level as the egg is turned before the light. The infertile eggs may be fed to chicks and loads.

The novice must expect to make some mistakes in testing. Give the egg the benefit of the doubt; mark it, and test again a few days later.

240. Moistening Eggs during incubation is not necessary. In a dry climate, if the heat is intense, or a dry wind is blowing while the eggs are hatching, it may be necessary to dampen the nest and the earth about it to prevent drying of the membrane *after the shell is pipped*, but sprinkling before the shell is broken can hardly have any effect on the contents of the egg.

241. Chilled Eggs. If hens are set in covered nests, and the keeper sees that they go back in time and shut them in, there will be no cold eggs. If eggs do get cold, it is as well to continue incubation, and note results. In the early part of the period their condition can be determined by testing; later one must wait until the time is up; then, if chicks are hatched, judge from the chicks themselves whether they are worth keeping. Eggs under hens will stand much more cooling than in an incubator. Many instances have been known of eggs exposed to an almost freezing temperature for some time hatching good strong chicks. Chilling seems to be less injurious during the second week of incubation than earlier or later.

242. When the Chicks are Hatching it is best to watch them quite closely. Some hens become excited when the chicks begin to "sweep," and in their restlessness crush eggs, so that the chicks cannot turn in the shells. If possible, such hens should be changed with hens that have been sitting for a shorter period. A few hens, perhaps one in a hundred, will kill chicks as fast as they hatch, and one must be on the lookout for these. Trampling chicks in the nests after hatching, is very often due to weak chicks, as to clumsy hens; but there are some hens not to be trusted, and some that will get along very well if the nests are not too full, but not so well with a full nest. When there are many hens available, it is not hard to so shift them around that the losses of chicks in the nests are kept low.

243. Helping Chicks Out of the Shell. If chicks are alive, and seem

*Note.—Such restlessness is not due to nervousness at being disturbed by the attendant examining the eggs. These restless hens will jostle and crush the eggs though left entirely to themselves, and the same is true of many hens that trample chicks.

to be strong, though apparently unable to get out of the shells, and apparently they should be let alone until all that can get out by themselves are out, and the shell may be gently broken, and the cap removed. If the incubation is not due to the chick, it should be left to help itself. If the incubation is due to the mother, it should be left to help itself. If the incubation is due to the mother, it should be left to help itself. If the incubation is due to the mother, it should be left to help itself.

244. After Hatching.—When the chicks are hatched and dry, they should be removed from the nests and distributed among the best of the hens, each medium sized hen being given from ten to twelve chicks in cold weather, and eighteen or twenty in warm weather. Larger flocks are sometimes given, and hens may do well with them, but the chicks do not often make as good growth as when less crowded. It is better to limit the number to as many as the hen can keep warm the coldest nights she has to brood them. It must be remembered that the chicks constantly increase in size, while the hen remains the same. A hen that has made a poor hatch, for which her condition seems to be responsible, ought not to be given a brood. It is likely that her vitality is low, and that instead of nourishing the chicks, she will rob them of vitality when she broods them, and they will in consequence dwindle and die, seemingly without cause. A sickly legged hen ought never to be used as a mother—though if not too bad, she may be used to incubate eggs.

245. Puny and Deformed Chicks should be killed at once. It is neither kindness nor policy to keep them. This is one of the hardest lessons for the poultry keeper to learn. The weaklings appeal to his sympathies. He cannot find it in his heart to take away their slender chances of life, and he is averse to voluntarily giving up any results of his labor except for value received. If one will make a practice of killing every weakling as he takes the chicks from the nests, he will see the general condition of his young stock much improved, and will be far less troubled with the common ills of chickhood.

246. Marking Chicks.—If the chicks are to be marked, it should be done by making punch marks in the webs of the feet as they are removed from the nests, using one of the markers made especially for the purpose. Marking can be done at any time, but chicks may become mixed after being taken from the nests; and further, if the marking is done when they are but a few hours old, the cut will bleed but little, and there is not the danger of chicks picking each other's feet as they often do when marking is postponed until they are older, and the cut bleeds more freely. As there are two webs in each foot, it is possible so to mark the chicks that the offspring of sixteen different matings of each breed or variety can be readily identified by the

BLANCHARD'S WHITE LEGHORNS

The Leading Strain
— OF —
HEAVY LAYERS.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Our birds are unexcelled for introducing new blood, or as foundation stock. RHODE ISLAND REDS

16 firsts and 12 second prizes won by our birds last season. We should be pleased to hear from you and tell you more about them. As a breed for the farmer they are unequalled, as they are hardy, prolific layers, and mature quickly. We have about three hundred good breeders which we will sell very low.

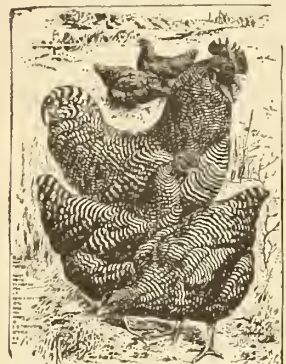

EGGS \$2 for 15; \$3.50 for 30; \$5 for 45. Incu. eggs \$5 for 100. Send stamp for large illustrated catalog.

E. B. THOMPSON'S BARRED PLYMOUTH ROCKS,

"First Prize Breeding Pen
at New York."

500 Breeding Cockerels. One of them will do you good. Choice females in any number. Show birds fit to win in the fastest company. EGGS from FINEST EXHIBITION MATINGS, one sitting, \$5; two sittings, \$9; three sittings, \$12; four sittings, \$15.

Richly illustrated 24-page catalogue on application. It is full of original illustrations of New York winners from life. Address

E. B. THOMPSON, Lock Box 401, Amenia, Dutchess Co., N. Y.

Four Years in Succession was the most remarkable ever achieved in the realm of poultry exhibitions. This record is by many points the highest ever accomplished in the **Annals of the New York Show**, winning during four years in succession more than three times as many First Prizes as any other exhibitor, and as many First Prizes as ALL COMPETITORS COMBINED, besides more than twice as many cups and specials as all, including the Superb Challenge Trophy, value \$100, for best cock, cockerel, hen, pullet and exhibition pen; \$100 Silver Cup for finest exhibit; Grand Special Prize, Sweepstakes Cup, value \$100, presented by President for the best Plymouth Rock cock, cockerel, hen and pullet, any variety.

MY CLEAN SWEEP of 1st, 2d, 3d, 4th, and 5th PRIZES on PULLETS has never been approached in Madison Square Garden, and stands alone and unequalled. The "Ringlets" also hold the **World's Record of 1st on Exhibition Pen** at New York, three years in succession. With their 1900 Record the "Ringlets" have won at New York a grand total of 77 Prizes—31 of these are 1st and specials, being 17 more 1st and special prizes than won by any competitor in the history of the show.

GRAND STOCK FOR SALE,

PROOF OF QUALITY.

Morrowville, Kas., Feb. 6, '01.

Mr. E. B. Thompson:

Dear Sir—My winnings on Barred Rocks at the Washington, Kas., show, January, 1901, were 1st, 2d, and 3d cockerels; 1st, 2d, and 3d pullets; 1st and 2d hens; 1st, 2d, and 3d on breeding pens; sweepstakes on parti-colored birds, and silver cup for best display Barred Rocks.

These birds were all hatched from eggs bought of you. I will want more eggs in the spring. Yours respectfully,

FRANK MCCORMACK.

POULTRY INSURANCE.

Since the greatest enemy of poultry and the greatest preventive of poultry success is lice, the thing which will effectually kill lice and rid the poultry house of them is a species of poultry insurance. The

**FRANKLIN
LICE KILLER**

is guaranteed to kill all lice, mites, fleas and other poultry vermin quickly and thoroughly. Merely sprinkle it on the roosts, dropping boards, floors, &c. Easiest of all to apply—no handling of fowls necessary. Acts also as a powerful disinfectant. Then, too, it's cheap—1 qt., 30¢; ½ gal., 50¢; 1 gal., 75¢ and 5 gallon can for \$3. Write in a hurry.

PHYSICIAN'S Pet Prescription

As a rule regular physicians do not prescribe proprietary medicines. There is good reason for that rule. But like all good rules, there are exceptions to this one. We will tell you of a remedy which some of the very best physicians in America have prescribed for many years. That remedy many physicians have spoken highly of to their patients whom they found using it, and recommended them to continue its use, because "it is a good article of real merit." It was the pet remedy of its originator, himself an old family physician of the regular school. Almost every old physician of large practice has some one or more pet prescriptions in which he has great faith, and he uses the same very many times for similar troubles in different individuals. Some physicians know that this remedy was used in the regular practice of Dr. Abner Johnson, the originator, who as far back as 1810 began the use of his pet prescription, which has been known to the public for almost a century as

Johnson's Anodyne Liniment

At the time of the old Doctor's death, his son, I. S. Johnson, conceived the idea that if this pet prescription of his father was good for his patients it ought to be in more general use. This idea he carried into execution, and for three generations it has been doing worlds of good from youth to old age as a safe family remedy. Could a remedy have survived so long except it possess extraordinary virtue for family ills? It has been the first aid to the afflicted in many families until the Doctor came, and then he has often advised the continued use of it. What better endorsement could you ask for it? Time tells the tale. Mothers, you can safely trust such a remedy in your families. It is for Internal as much as External use.

Every Mother Needs It.

The past year, like others, has found many persons, old and young, feeble and strong alike, affected with Colds in the chest, La Grippe and serious terminations of them—Bronchitis, with dry hard coughs and more or less pleurisy pain, often ending in Pneumonia. JOHNSON'S ANODYNE LINIMENT frequently cures when all else fails.

We know of such cases where regular physicians have advised the use of JOHNSON'S ANODYNE LINIMENT in preference to any other remedy to bathe and pack the chest and throat. We know a physician who recommended it to rub the chest of a little infant not nine months old, the life of which was almost despaired of from Bronchitis. Would he have done that or risked his reputation and the life of his patient on an untried remedy? Physicians know that JOHNSON'S ANODYNE LINIMENT is a safe, soothing, stimulating and sure remedy. The writer has used it often, by the advice of his family physician, on a little daughter not twenty months old for Bronchitis, Sore Throat, and inflamed glands, because of his knowledge of how it is made and experience with it for thirty years.

That is enough to say, except keep these facts in mind, and when you have a Cold, Bronchitis, Soreness, Swelling, Sprain or Pain,—any Ache anywhere,—try JOHNSON'S ANODYNE LINIMENT. Full directions are wrapped around each bottle; together with much other valuable information.

BULL-STRONG!
....PIG-TIGHT....
An Illinois farmer said that after harvest he had fully 200 bushels of loose oats on the ground that he could not secure any benefit from because the fence around the field would not turn hogs. Figure the loss for yourself. He also said, all this would have been saved if he had used the **Kitselman Woven Wire Coiled Spring Fence.** and the value would have gone a long way towards paying cost of the fence. With the **Duplex Machine** any farmer can make it himself at the actual cost of the wire. Catalogue free for the asking.

MILLIONS OF Little Chicks

WILL DIE THIS YEAR FOR Want of Proper Food and Care.

Will yours be among them? Will you bury your profits in the ground from day to day, or put them in your pocket at the end of the season?

When chicks are handled wrong losses are large, returns small. When chicks are managed right losses are small, profits substantial.

Take care of the chickens, the profits will take care of themselves.

Now if you can raise chicks without serious loss, what we have to say further will not interest you; but, if your work has not been up to your expectations in the past, don't wait until the chickens begin to die; begin right away to study the requirements of young chicks, and the best ways of meeting them. We could direct you to a number of sources of information of this kind, but we know of none better than

POULTRY - CRAFT

The new book on practical poultry keeping, by John H. Robinson.

The chapter on "Hatching and Rearing Chicks" is alone worth many times the price of the book to any poultry grower. It tells all you need to know to grow chicks successfully, by either the natural or artificial method, and it tells it quick. Whatever you want you find in Poultry-Craft, and find in an instant.

Remember that chickens saved are money earned, and that it is cheaper to pay cash for a good book now, and save the chicks this year, than to pay this year in lost chicks for knowledge to be used next year.

POULTRY-CRAFT Is a handsome book of 272 pages, substantially bound in cloth, appropriately illustrated. A four page circular, giving contents of each chapter, sent free for the asking.

King Crumming Machine

Much used in England and France, where the finest table poultry in the world is produced and sold at remarkably high prices. At the present era there is no way by which so much money can be made from poultry as fattening chickens by crumming. "The text may stifle, the sermon is no fable." Always highest fancy market prices can be obtained for chickens fattened by crumming. It gives an opportunity to up to date Yankees who have heretofore been obliged to gain but a bare living from poultry to begin the 20th century under better conditions, and increase their income many times.

ASBESTINE

Cold Water Paint.

(WEATHERPROOF.)

Now Speare's Paint Man has painted his barn with Asbestine. Painted it a pleasing color that will not fade, rub nor wash off, for it is sun and rainproof. The barn looks as fine as anybody's now and will last much longer, for Asbestine preserves wood from the action of the weather. The barn is also protected from fire.

Gen. W. A. Clark, Neslannock Falls, Pa., told Speare's Paint Man that when his hotel burned, Asbestine saved his barn, only sixty feet distant.

Speare's Paint Man saved a great deal on the job, for Asbestine costs 75% less than lead and oil, and he did not have to pay for skilled labor to mix or apply the paint. He and his men did the work at odd jobs.

Speare's Paint Man has used Asbestine inside on his cellar and outside on his barn, and has been greatly pleased with results. He will use it on his fences next.

Asbestine is a dry powder. Add cold water, and you have a fireproof and weatherproof paint that any one can apply. Costs 1/4 as much as oil paint. Comes in white for inside, and white and 16 colors for outside. Ask your dealer for it, or send for color-card "L," applied sample and price-list.

POULTRY-CRAFT

quite evenly clouded, but lightest at the small end, has the air space at the large end clearly defined, and the line marking the air space remains fixed as the egg is turned before the light. An egg containing a dead germ may show more faintly clouded than a fertile egg, as if less advanced, or the germ may be discernible, black and unstable—not dark red and in a fixed position, as in the live egg. As decomposition proceeds and the egg becomes decidedly rotten, it appears more unevenly clouded, and the line of the air space tends to remain level as the egg is turned before the light. The infertile eggs may be fed to chicks and fowls.

The novice must expect to make some mistakes in testing. Give the egg the benefit of the doubt; mark it, and test again a few days later.

240. Moistening Eggs during incubation is not necessary. In a dry climate, if the heat is intense, or a dry wind is blowing while the eggs are hatching, it may be necessary to dampen the nest and the earth about it to prevent drying of the membrane *after the shell is pipped*, but sprinkling before the shell is broken can hardly have any effect on the contents of the egg.

241. Chilled Eggs.—If hens are set in covered nests, and the keeper sees that they go back in time and shut them in, there will be no cold eggs. If eggs do get cold, it is as well to continue incubation, and note results. In the early part of the period their condition can be determined by testing; later one must wait until the time is up; then, if chicks are hatched, judge from the chicks themselves whether they are worth keeping. Eggs under hens will stand much more cooling than in an incubator. Many instances have been known of eggs exposed to an almost freezing temperature for some time hatching good strong chicks. Chilling seems to be less injurious during the second week of incubation than earlier or later.

242. When the Chicks are Hatching—it is best to watch them quite closely. Some hens become excited when the chicks begin to "cheep," and in their restlessness crush eggs, so that the chicks cannot turn in the shells. If possible, such hens should be changed with hens that have been sitting for a shorter period. A few hens, perhaps one in a hundred, will kill chicks as fast as they hatch, and one must be on the lookout for these. Trampling chicks in the nests after hatching, is as often due to weak chicks as to clumsy hens; but there are some hens not to be trusted, and some that will get along very well if the nests are not too full, but not so well with a full nest. When there are many hens available, it is not hard to so shift them around that the losses of chicks in the nests are kept low.

243. Helping Chicks Out of the Shell. If chicks are alive, and seem

*Note.—Such restlessness is not due to annoyance at being disturbed by the attendant examining the eggs. These restless hens will find and crush the eggs though left entirely to themselves, and the same is true of many hens that trample chicks

POULTRY-CRAFT

171

to be strong, though apparently unable to get out of the shells after pipping, they should be left alone until all that can get out by themselves are out, then the shell may be gently broken, and the cap removed. If the membrane is not dried to the chick, it should be left to help itself out. If the membrane adheres to the chick, it should be moistened with warm water or saliva, which is better—and carefully detached. If this can be done without causing bleeding, the chick is likely to come out all right; if it bleeds, it will probably die.

244. After Hatching.—When the chicks are hatched and dry, they should be removed from the nests and distributed among the best of the hens, each medium sized hen being given from ten to twelve chicks in cold weather, and eighteen or twenty in warm weather. Larger broods are sometimes given, and hens may do well with them, but the chicks do not often make as good growth as when less crowded. It is better to limit the number to as many as the hen can keep warm the coldest nights she has to brood them. It must be remembered that the chicks constantly increase in size, while the hen remains the same. A hen that has made a poor hatch, for which her condition seems to be responsible, might not be given a brood. It is likely that her vitality is low, and that instead of nourishing the chicks, she will rob them of vitality when she broods them, and they will in consequence dwindle and die, seemingly without cause. A scale legged hen might never be brooded as a mother—though if not too bad, she may be used to incubate eggs.

245. Puny and Deformed Chicks should be killed at once. It is neither kindness nor policy to keep them. This is one of the hardest lessons for the poultry keeper to learn. The weaklings appeal to his sympathies. He cannot find it in his heart to take away their slender chances of life, and he is averse to voluntarily giving up any results of his labor except for value received. If one will make a practice of killing every weakling as he takes the chicks from the nests, he will see the general condition of his young stock much improved, and will be far less troubled with the common ills of chicks.

246. Marking Chicks.—If the chicks are to be marked, it should be done by making punch marks in the webs of the feet as they are removed from the nests, using one of the markers made especially for the purpose. Marking can be done at any time, but chicks may become mixed after being taken from the nests; and further, if the marking is done when they are but a few hours old, the cut will bleed but little, and there is not the danger of chicks picking each other's feet as they often do when marking is postponed until they are older, and the cut bleeds more freely. As there are two webs in each foot, it is possible to mark the chicks that the offspring of sixteen different matings of each breed or variety can be readily identified by the

For 100, \$20.00.

Have won more prizes at New York, Boston, Washington, and America's greatest shows than all others. My matings this season are the best I ever owned.

At the great National Show, WASHINGTON, D.C., in hot competition with over 300 birds of these varieties, the best that could be found regardless of price, I won 15 Regular and Special Prizes on 39 Entries, including First Prize on Breeding-Pen in each variety, Special for Best Display in the American Class, Special for Best Exhibit of Plymouth Rocks, Sweepstakes Special for Best Cockerel in the show (Dantams excluded), and this on my First Prize Barred P. Rock Cockerel. My winning White Wyandotte cock was pronounced by the judges to be the best they had ever seen. I won twice as many first prizes as all other exhibitors of these varieties. MY BUFF ROCKS, at Boston, 1899, in hot competition, won more first and special prizes than all others. My customers are winning all over the country. If you want the BEST, write me. Hundreds of Choice Exhibition and Breeding Birds at Lowest Prices. Catalogue of America's finest Plymouth Rocks and Wyandottes free.

BLANCHARD'S WHITE LEGHORNS

The Leading Strain
—OF—
HEAVY LAYERS.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Our birds are unequalled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE.

EGGS FOR HATCHING,

\$2 per 15; \$3.50 per 30; \$5 per 50; \$6 per 60; \$8 per 100.

EVERY MOTHER SHOULD HAVE IT IN THE HOUSE

For the common ailments which will occur in every family as long as life has woes. She can safely trust what time has indorsed.

I have been a standard bearer more than fifty years for Johnson's Anodyne Liniment. I have found it superior to any other. My grand-children and great-grand-children continue to use it.

Mrs. W. L. TOZIER, E. Corluth, Maine.

JOHNSON'S ANODYNE LINIMENT

Originated by an old Family Physician; is recommended by physicians; has relieved more suffering than any other remedy. It is for Internal as much as External use. Dropped on sugar it is pleasant to take for colds, coughs, croup, colic, cramps, pains. There is not a remedy in use which has the confidence of the public to a greater extent.

Our book on INFLAMMATION sent free. Directions with every bottle. At druggists. Put up in two sizes, 25c. and 50c.

Per 100, \$20.00.

Have won more prizes at New York, Boston, Washington, and America's greatest shows than all others. My matings this season are the best I ever owned.

At the great National Show, WASHINGTON, D.C., in hot competition with over 300 birds of these varieties, the best that could be found regardless of price, I won 45 Regular and Special Prizes on 39 Entries, including First Prize on Breeding-Pen in each variety, Special for Best Display in the American Class, Special for Best Exhibit of Plymouth Rocks, Sweepstakes Special for Best Cockerel in the show (bantams excluded), and this on my First Prize Barred P. Rock Cockerel. My winning White Wyandotte cock was pronounced by the judges to be the best they had ever seen. I won twice as many first prizes as all other exhibitors of these varieties. MY BUFF ROCKS, at Boston, 1899, in hot competition, won more first and special prizes than all others. My customers are winning all over the country. If you want the BEST, write me. Hundreds of Choice Exhibition and Breeding Birds at Honest Prices. Catalogue of America's finest Plymouth Rocks and Wyandottes free.

PHYSICIAN'S Pet Prescription

As a rule regular physicians do not prescribe proprietary medicines. There is good reason for that rule. But like all good rules, there are exceptions to this one. We will tell you of a remedy which some of the very best physicians in America have prescribed for many years. That remedy many physicians have spoken highly of to their patients whom they found using it, and recommended them to continue its use, because "it is a good article of real merit." It was the pet remedy of its originator, himself an old family physician of the regular school. Almost every old physician of large practice has some one or more pet prescriptions in which he has great faith, and he uses the same very many times for similar troubles in different individuals. Some physicians know that this remedy was used in the regular practice of Dr. Abner Johnson, the originator, who as far back as 1810 began the use of his pet prescription, which has been known to the public for almost a century as

Johnson's Anodyne Liniment

At the time of the old Doctor's death, his son, I. S. Johnson, conceived the idea that if this pet prescription of his father was good for his patients it ought to be in more general use. This idea he carried into execution, and for three generations it has been doing worlds of good from youth to old age as a safe family remedy. Could a remedy have survived so long except it possess extraordinary virtue for family ills? It has been the first aid to the afflicted in many families until the Doctor came, and then he has often advised the continued use of it. What better indorsement could you ask for it? Time tells the tale. Mothers, you can safely trust such a remedy in your families. It is for Internal as much as External use.

Every Mother Needs It.

The past year, like others, has found many persons, old and young, feeble and strong alike, affected with Colds in the chest, La Grippe and serious terminations of them—Bronchitis, with dry hard coughs and more or less pleurisy pain, often ending in Pneumonia. JOHNSON'S ANODYNE LINIMENT frequently cures when all else fails.

We know of such cases where regular physicians have advised the use of JOHNSON'S ANODYNE LINIMENT in preference to any other remedy to bathe and pack the chest and throat. We know a physician who recommended it to rub the chest of a little infant not nine months old, the life of which was almost despaired of from Bronchitis. Would he have done that or risked his reputation and the life of his patient on an untried remedy? Physicians know that JOHNSON'S ANODYNE LINIMENT is a safe, soothing, stimulating and sure remedy. The writer has used it often, by the advice of his family physician, on a little daughter not twenty months old for Bronchitis, Sore Throat, and inflamed glands, because of his knowledge of how it is made and experience with it for thirty years.

That is enough to say, except keep these facts in mind, and when you have a Cold, Bronchitis, Soreness, Swelling, Sprain or Pain,—any Ache anywhere,—try JOHNSON'S ANODYNE LINIMENT. Full directions are wrapped around each bottle; together with much other valuable information.

Have won more prizes at New York, Boston, Washington, and America's greatest shows than all others. My matings this season are the best I ever owned.

At the great National Show, WASHINGTON, D.C., in hot competition with over 300 birds of these varieties, the best that could be found regardless of price, I won 45 Regular and Special Prizes on 39 Entries, including First Prize on Breeding-Pen in each variety, Special for Best Display in the American Class, Special for Best Exhibit of Plymouth Rocks, Sweepstakes Special for Best Cockerel in the show (Rantams excluded), and this on my First Prize Barred P. Rock Cockerel. My winning White Wyandotte cock was pronounced by the judges to be the best they had ever seen. I won twice as many first prizes as all other exhibitors of these varieties. MY BUFF ROCKS, at Boston, 1899, in hot competition, won more first and special prizes than all others. My customers are winning all over the country. If you want the BEST, write me. Hundreds of Choice Exhibition and Breeding Birds at Honest Prices. Catalogue of America's Best Plymouth Rocks and Wyandottes free.

BLANCHARD'S WHITE LEGHORNS The Leading Strain of Heavy Layers.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Our birds are unexcelled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE.

Johnson's Anodyne Liniment

Its electric energy excites the parts to more healthful action, thus giving them the power to throw off and cure disease. Many physicians recommend it. It is strictly for family use. All who use it are amazed at its power and loud in its praise ever after. It is safe, sure.

For INTERNAL as much as EXTERNAL use.

Every Mother should have it in the house for the common ailments which occur in every family as long as life has woes. It was originated in 1810, by an old Family Physician. Pleasant to take dropped on sugar for colds, coughs, croup.

This certifies that Dr. A. Johnson, whose name is signed to every genuine bottle of Johnson's Anodyne Liniment, in 1840 left at my store some of the same. I have supplied my customers with it since with increasing sales. Have used it in my family and consider it the best.

Send for our Book on INFLAMMATION, mailed free. Sold by all Druggists. Put up in Two Sizes, Price 25 and 50 cts.

I suffered for months from asthma. I slept propped up in a chair. My physician failed to give me any ease. The first night after using Johnson's Anodyne Liniment I lay in bed for some hours, and every night since I have gone to my bed like the rest of the family. Mrs. ANGUS MCKINNON, Cashel P. For You Only.

The above headline means that we are talking especially to whoever reads this advertisement. We mean it **FOR YOU ONLY**, now and here. We shall try to tell something interesting, very interesting, **FOR YOU ONLY**. Read the following carefully.

A bright, earnest reader of **FARM-POULTRY** said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his **FARM-POULTRY** at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get **Farm-Poultry** for less. I would rather pay the full dollar and get **Farm-Poultry** alone."

That, we believe, is the sentiment of many. **FARM-POULTRY** is actually worth \$2.00 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. **F.-P.** will continue to give poultry news, as reported to us for its columns.

No other Combines so Many Good Features.

Market Poultry Keeping.

Covers the entire subject thoroughly. Never had a rival.
Gives the best Market Reports and advices. Twice a month.
The Answers to Correspondents are helpful and practical.
Unlike Any Other.

Fancy Poultry Culture.

More matters of real interest to Fanciers than any other paper. Compare Files for past year.
Best Reports of Big Shows. Only one illustrating winners.
All Show Awards in Full and Promptly. Readers get the news.

Compare **Farm-Poultry** with any or all other papers.

Cut out This Coupon and Mail with Order.

COUPON OFFER: The Agents' rate for **FARM-POULTRY** in clubs of less than five subscribers at one time, is 75 cents per year. **SEND US AT ONCE, 75 cents** and we will send you **FARM-POULTRY** for **ONE YEAR**, semi-monthly, 24 issues. Or send us \$1.00 cash **NOW**, and we will send **FARM-POULTRY** **TWO YEARS** from date of receipt of order.

This Offer is for OLD OR NEW Subscribers.

TAKE NOTICE:

If you are a subscriber now, send us \$1.00 **AT ONCE** and extend your subscription for **TWO YEARS** from expiration, as this offer may be withdrawn without notice.

* This offer applies only to orders received after March 1st, 1901.

This will give you the best rate we ever gave any one by clubbing, and you buy only what you want, namely, **FARM-POULTRY**, the best poultry paper published in the whole world, as our great subscription list in this and foreign countries fully testifies.

FOR CLUBBING: If you want any other poultry or agricultural paper, or papers, we will supply them as follows:—For 50-cent a year papers, 39 cts.; for \$1.00 a year papers, 75 cts. each annually. Add the amount of all such wanted to our first offer as taken by you, and remit us the full amount with your first order. Thus you can get what is wanted **FOR YOU ONLY**.

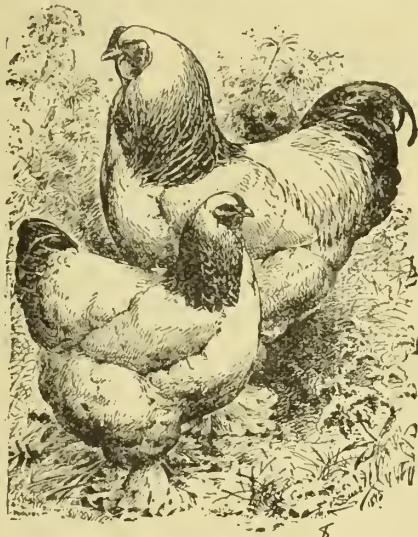

Send all orders to us, with cash, stamps or money orders. Do not send checks unless you add 10 cts. for exchange. No changes allowed after order is entered on our books. Postage extra in the town where either paper is published. The postal laws require it. A one dollar bill will reach us if in a letter plainly addressed to **FARM-POULTRY PUB. CO., Boston, Mass.**

A bright, earnest reader of **FARM-POULTRY** said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his **FARM-POULTRY** at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get **Farm-Poultry** for less. I would rather pay the full dollar, and get **Farm-Poultry** alone."

That, we believe is the sentiment of many. **FARM-POULTRY** is actually worth \$2 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. **F.-P.** will continue to give poultry news, as reported to us for its columns.

OUR OFFER

TWO DOLLARS FOR ONE.

The regular price for **Farm-Poultry** one year is **\$1.00.** If you use the coupon herewith, you can get it **TWO YEARS** for **ONE DOLLAR.**

Cut out This Coupon and Mail with Order.

FOR YOU ONLY. The Agents' rate for **FARM-POULTRY** in clubs of less than five subscribers at one time, is 75 cents per year. **SEND US AT ONCE,** 75 cents and we will send you **FARM-POULTRY** for **ONE YEAR,** semi-monthly, 24 issues. Or send us \$1.00 cash **NOW,** and we will send **FARM-POULTRY** **TWO YEARS** from date of receipt of order.

This Offer is for **OLD OR NEW** Subscribers.

If you are a subscriber now, send us **\$1.00 AT ONCE** and we will extend your subscription for **TWO YEARS** from expiration of present term. This offer applies only to orders received after this date.

This will give you the best rate we ever gave any one by clubbing, and you buy only what you want, namely, **FARM-POULTRY,** the best poultry paper published in the whole world, as our great subscription list in this and foreign countries fully testifies.

FOR CLUBBING: If you want any other poultry or agricultural paper or papers, we will supply them as follows:— For 50-cents a year papers, 30 cts.; for \$1 a year papers, 75 cts. each annually. Add the amount of all such wanted to our first offer as taken by you, and remit us the full amount with your first order. Thus you can get what is wanted **FOR YOU ONLY.** This offer gives subscribers the best agents' rates allowed by us on **Farm-Poultry** or any other paper, and is the only offer we shall make this year.

Send all orders to us, with cash, stamps, or money orders. Do not send checks unless you add 10 cts. for exchange. No changes allowed after order is entered on our books. Postage extra in the town where either paper is published. The postal laws require it. A one dollar bill will reach us if it is sent us in a letter plainly addressed to

BLANCHARD'S WHITE LEGHORNS

The Leading Strain of Heavy Layers.
Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it all summer. Our birds are unexcelled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE.

Make More Muscle

Also keep what you have in firm, flexible condition. Develop a body free from aches and pains, if you wish to enjoy physical health, without which life loses its most captivating charms. A brisk rub down with the great muscle nerve, **Johnson's Anodyne Liniment**, after severe work or exercise, will strengthen the muscles and invigorate the tired nerves. Originated by a Family Physician.

Every bruise, swelling, lameness, should be freely bathed with **Johnson's Anodyne Liniment**. It is safe, soothing, sure.

For severe colds, **Johnson's Anodyne Liniment** cures more quickly than any other remedy.

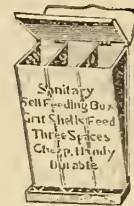

For summer complaints and all pains in the stomach, bowels, kidneys, use **Johnson's Anodyne Liniment** internally.

Professor **ROBERT J. ROBERTS**, of the Y. M. C. A. Gymnasium, of Boston, says: "I can speak of the old **Johnson's Anodyne Liniment** in the highest terms. I have used it when the boys have strained or overworked their bodies. It acts like magic in reducing swelled joints and in removing soreness of the overworked parts. At home my wife has used it with our boys and speaks most enthusiastically."

Two For One

The above headline means that you can get \$2 in value for \$1 in cash; or FARM-POULTRY two years for one year's payment. You will find the following interesting, very interesting, FOR YOU ONLY.. Read every word carefully.

A bright, earnest reader of FARM-POULTRY said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his FARM-POULTRY at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get **Farm-Poultry** for less. I would rather pay the full dollar, and get **Farm-Poultry** alone."

That, we believe is the sentiment of many. FARM-POULTRY is actually worth \$2 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. F.-P. will continue to give poultry news, as reported to us for its columns.

HATCH Strong

CHICKENS.

Then keep them healthy and growing if you want the Pullets to lay when five months old. When hens lay eggs for hatching mix in their food every other day

Sheridan's Powder.

It strengthens the hens; makes the rooster more vigorous; finally you get more fertile eggs and strong healthy chickens. Persons who succeed best in keeping Poultry, commence with little chicks; giving twice a week an even teaspoonful of Sheridan's Condition Powder mixed with each quart of food, gradually increasing the dose. Sold by druggists, grocers, feed dealers, or by mail. Single pack 25 cents. Large cans \$1.20. Six cans \$5. Exp. paid.

Two For One

The above headline means that you can get \$2 in value for \$1 in cash; or FARM-POULTRY two years for one year's payment. You will find the following interesting, very interesting, FOR YOU ONLY. Read every word carefully.

A bright, earnest reader of FARM-POULTRY said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his FARM-POULTRY at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get Farm-Poultry for less. I would rather pay the full dollar, and get Farm-Poultry alone."

That, we believe is the sentiment of many. FARM-POULTRY is actually worth \$2 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. F.-P. will continue to give poultry news, as reported to us for its columns.

OUR OFFER

TWO DOLLARS FOR ONE.

The regular price for Farm-Poultry one year is \$1.00. If you use the coupon herewith, you can get it **TWO YEARS** for **ONE DOLLAR.**

Cut out This Coupon and Mail with Order.

FOR YOU ONLY. The Agents' rate for FARM-POULTRY in clubs of less than five subscribers at one time, is 75 cents per year. **SEND US AT ONCE,** 75 cents and we will send you FARM-POULTRY for **ONE YEAR,** semi-monthly, 24 issues. Or send us \$1.00 cash **NOW,** and we will send FARM-POULTRY **TWO YEARS** from date of receipt of order.

This Offer is for **OLD OR NEW** Subscribers.

If you are a subscriber now, send us \$1.00 **AT ONCE** and we will extend your subscription for **TWO YEARS** from expiration of present term. This offer applies only to orders received after this date.

This will give you the best rate we ever gave any one by clubbing, and you buy only what you want, namely, FARM-POULTRY, the best poultry paper published in the whole world, as our great subscription list in this and foreign countries fully testifies.

FOR CLUBBING: If you want any other poultry or agricultural paper or papers, we will supply them as follows:— For 50-cents a year papers, 30 cts.; for \$1 a year papers, 75 cts. each annually. Add the amount of all such wanted to our first offer as taken by you, and remit us the full amount with your first order. Thus you can get what is wanted **FOR YOU ONLY.** This offer gives subscribers the best agents' rates allowed by us on Farm-Poultry or any other paper, and is the only offer we shall make this year.

Send all orders to us, with cash, stamps, or money orders. Do not send checks unless you add 10 cts. for exchange. No changes allowed after order is entered on our books. Postage extra in the town where either paper is published. The postal laws require it. A one dollar bill will reach us if it is sent us in a letter plainly addressed to

Do Not Forget, that for many it's which may occur in every family as long as life has woes,
JOHNSON'S ANODYNE LINIMENT Is for INTERNAL as much as EXTERNAL use. It is safe, sure.
It was originated in 1810, by an old Family Physician, to cure ailments attended with inflammation. It is used and recommended by many physicians. It has stood upon its own intrinsic virtue, while generation after generation have used it with entire satisfaction, as a useful family remedy. Could a medicine have existed for almost a century except for the fact that it possesses great merits? It has cured more diseases and relieved more suffering, than any other medicine.
PLEASANT TO TAKE Dropped on Sugar. **THE SOOTHING ANODYNE.**
CURES COLDS. CROUP. COUGHS. CRAMPS AND PAINS.

Two For One

The above headline means that you can get \$2 in value for \$1 in cash; or FARM-POULTRY two years for one year's payment. You will find the following interesting, very interesting, FOR YOU ONLY. Read every word carefully.

A bright, earnest reader of FARM-POULTRY said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his FARM-POULTRY at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get Farm-Poultry for less. I would rather pay the full dollar, and get Farm-Poultry alone."

That, we believe is the sentiment of many. FARM-POULTRY is actually worth \$2 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. F.-P. will continue to give poultry news, as reported to us for its columns.

OUR OFFER **TWO DOLLARS FOR ONE.**
The regular price for Farm-Poultry one year is \$1.00. If you use the coupon herewith, you can get it **TWO YEARS** for **ONE DOLLAR.**
Cut out This Coupon and Mail with Order.
FOR YOU ONLY. The Agents' rate for FARM-POULTRY in clubs of less than five subscribers at one time, is 75 cents per year. SEND US AT ONCE, 75 cents and we will send you FARM-POULTRY for ONE YEAR, semi-monthly, 24 issues. Or send us \$1.00 cash NOW, and we will send FARM-POULTRY TWO YEARS from date of receipt of order.
This Offer is for OLD OR NEW Subscribers.

If you are a subscriber now, send us \$1.00 AT ONCE and we will extend your subscription for TWO YEARS from expiration of present term. This offer applies only to orders received after this date.

This will give you the best rate we ever gave any one by clubbing, and you buy only what you want, namely, FARM-POULTRY, the best poultry paper published in the whole world, as our great subscription list in this and foreign countries fully testifies.

FOR CLUBBING: If you want any other poultry or agricultural paper or papers, we will supply them as follows:— For 50-cents a year papers, 30 cts.; for \$1 a year papers, 75 cts. each annually. Add the amount of all such wanted to our first offer as taken by you, and remit us the full amount with your first order. Thus you can get what is wanted FOR YOU ONLY. This offer gives subscribers the best agents' rates allowed by us on Farm-Poultry or any other paper, and is the only offer we shall make this year.

Send all orders to us, with cash, stamps, or money orders. Do not send checks unless you add 10 cts. for exchange. No changes allowed after order is entered on our books. Postage extra in the town or sub-stations of the postoffice of large cities where either paper is published. On F.-P. the postage is 48c. per year in Boston and sub-postoffices. The postal laws require it. A one dollar bill will reach us if it is sent us in a letter plainly addressed to

BLANCHARD'S WHITE LEGHORNS

The Leading Strain of Heavy Layers.

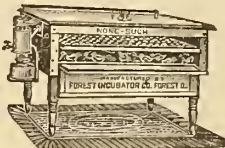

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully
justify the claim that they are the greatest laying strain of Single Comb White Leghorns in
existence. No labor or expense has been spared in building up and perfecting this strain, and while
the production of large pure white fancy market eggs has been the main object, Standard Qualities have
not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it
all summer. Our birds are unexcelled for introducing new blood, or as foundation stock. NO BET-

WHAT HE GIVES AWAY.
A night clerk in a prominent Boston hotel on Copley Square tells
of a disheartening state of affairs with which he had to contend.
have been troubled a great deal with indigestion," he says, "and have
tried many so-called sure cures for that trouble, but never found the
relief I wanted until I tried Ripans Tabules. I have given them a
fair trial, and find they help in every case—in fact, I do not have occa-
sion to use them regularly now, but whenever I feel the least trouble I
take one Tabule and find relief at once." He states that his wife was
also troubled with sick headache and her food distressed her, but after
a few trials with Ripans Tabules she is very much better. "I would
recommend them," he adds, "to any one suffering with either indiges-
tion or dyspepsia. I give away as many as I use."

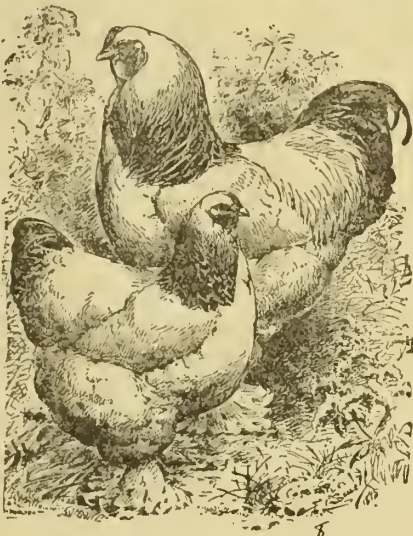

WANTED:—A case of bad health that R-I-P-A-N-S will not benefit. They banish pain and prolong life.
One gives relief. Note the word R-I-P-A-N-S on the package and accept no substitute. R-I-P-A-N-S,
10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to
any address for 5 cents, forwarded to the Ripans Chemical Co., No. 10 Spruce St., New York.

BLANCHARD'S WHITE LEGHORNS

The Leading Strain of Heavy Layers.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully
justify the claim that they are the greatest laying strain of Single Comb White Leghorns in
existence. No labor or expense has been spared in building up and perfecting this strain, and while
the production of large pure white fancy market eggs has been the main object, Standard Qualities have
not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep at it
all summer. Our birds are unexcelled for introducing new blood, or as foundation stock. NO BET-
TER ANYWHERE AT ANY PRICE.

Have You Seen The New MANN'S?

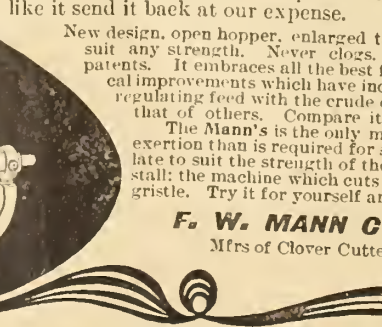

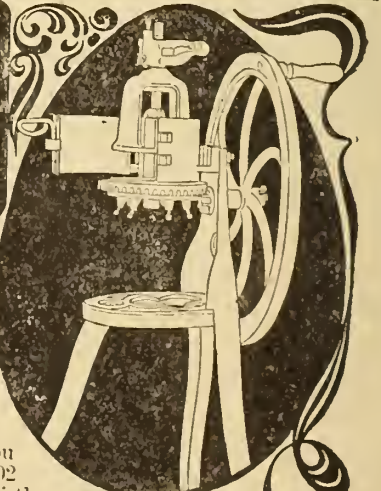

You don't know what a bone cutter really is, until you see
Mann's 1902 Model
Different From All Others.

You cannot afford to get along without a good bone cutter, and
you cannot afford to buy one until after you have investigated the
Mann's 1902 Model, especially as you can get one on
TEN DAYS FREE TRIAL. No money asked for until you
prove our guarantee on your own premises, that our 1902
model will cut all kinds of bone, with adhering meat and gristle,
easier and faster and in better shape than any other type of bone cutter.
If you don't like it send it back at our expense.

New design, open hopper, enlarged table, new device to control feed. You can set it to
suit any strength. Never clogs. This is the newest machine covered by latest
patents. It embraces all the best features of the old reliable Mann's and a dozen ra-
tional improvements which have increased its efficiency fully 100%. Compare its self-
regulating feed with the crude devices of other types. Compare its products with
that of others. Compare its ease of operation and then decide for yourself.

The Mann's is the only machine which cuts hard bones without any more
exertion than is required for soft bones. The only machine which you can regu-
late to suit the strength of the operator. The machine which does not clog nor
stall: the machine which cuts not only bone, but any bone and all bone, meat and
gristle. Try it for yourself and see. Our new cat'lg explains all.

Cures Roup.

The evidence keeps accumulating day by day that one of the best methods of treating Roup is that described in Mr. M. K. Boyer's book on Poultry Diseases, by the use of our

JOHNSON'S ANODYNE LINIMENT

And why not? Certainly there has not been a remedy used in the last century which will cure colds and sore throat in human beings as quickly as the "Old Anodyne." It is put up in two sizes, 25 cents and 50 cents; the latter is most economical, as the bottle holds three times as much.

Sold by dealers in medicine, or sent by mail post-paid, on receipt by us of price as above. We will send to any address by mail,

FARM-POULTRY PUB. CO., Boston, Mass.

A farmer in the State of Washington has solved the problem of counteracting the evils of a farmer's life by using **Ripans Tabules**. As it is often the case, the farmer's wife was the wiser, and having read about **Ripans Tabules**, insisted upon her husband trying them. He afterwards said: "Well, I am glad I had sense enough to try them, for after a few days' use I could eat to satisfy my hunger without suffering." For years previous to this he had been suffering from a disordered stomach and often its symptoms made life positively hateful. Now he enjoys a good, hearty meal as well as any one, but to guard against the effects of over-indulgence, **Ripans Tabules** are always to be found in his vest pocket.

WANTED—A case of bad health that **RIPANS** will not benefit. They banish pain and prolong life. One gives relief. Note the word **RIPANS** on the package and accept no substitute. **RIPANS**, 10 for 5 cents, may be had at any drug store. Ten samples and one thousand testimonials will be mailed to any address for 5 cents, forwarded to the **Ripans Chemical Co.,** No. 10 Spruce St., New York.

The price of this calendar alone in art stores would be 50 cents.

FRANK LESLIE'S POPULAR MONTHLY
10 cents \$1.00 a Year
LESLIE's stories ring true. They are like life, and many of them are taken from actual occurrences. LESLIE's articles deal with every great phase of American endeavor. They stimulate while they entertain. To appreciate LESLIE's serials you must become a subscriber. A wonderful novel by Maurice Hewlett, author of "Richard Yea and Nay," begins shortly. Other brilliant serials follow in quick succession. Such men and women as Nansen, Zangwill, Ballington Booth, Henry van Dyke, Owen Wister, C. G. D. Roberts, "Ralph Connor," Booker Washington, Frank Stockton, Mary Wilkins, Margaret Sangster, Conan Doyle, Lden Philpotts, Sienkiewicz, Hopkinson Smith, Quiller-Couch, Bret Harte, and a multitude of others, make LESLIE's MONTHLY appeal distinctively to the active man, the intelligent woman, and to boys and girls who mean to accomplish something.

The Double 25th Anniversary Number
for November will be a special double issue making 10 pages and will be illustrated in black and white and color.
The Superb Christmas Issue
will be another masterpiece of literature and art. Beautifully illuminated in colors by the leading artists of the day.

Cures Roup.
The evidence keeps accumulating day by day that one of the best methods of treating Roup is that described in Mr. M. K. Boyer's book on Poultry Diseases, by the use of our
JOHNSON'S ANODYNE LINIMENT
And why not? Certainly there has not been a remedy used in the last century which will cure colds and sore throat in human beings as quickly as the "Old Anodyne." It is put up in two sizes, 25 cents and 50 cents; the latter is most economical, as the bottle holds three times as much.
Sold by dealers in medicine, or sent by mail post-paid, on receipt by us of price as above.
I. S. JOHNSON & CO., Box 2118, Boston, Mass.

Two For One

The above headline means that you can get \$2 in value for \$1 in cash; or FARM-POULTRY two years for one year's payment. You will find the following interesting, very interesting, FOR YOU ONLY. Read every word carefully, then order at once.

A bright, earnest reader of FARM-POULTRY said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his FARM-POULTRY at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get Farm-Poultry for less. I would rather pay the full dollar, and get Farm-Poultry alone."

That, we believe is the sentiment of many. FARM-POULTRY is actually worth \$2 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. F.-P. will continue to give poultry news, as reported to us for its columns.

OUR OFFER

TWO DOLLARS FOR ONE.

The regular price for Farm-Poultry one year is \$1.00. If you use the coupon herewith, you can get it **TWO YEARS** for **ONE DOLLAR**.

Cut out This Coupon and Mail with Order.

FOR YOU ONLY. The Agents' rate for FARM-POULTRY in clubs of less than five subscribers at one time, is 75 cents per year. **SEND US AT ONCE, 75 cents** and we will send you FARM-POULTRY for **ONE YEAR**, semi-monthly, 24 issues. Or send us \$1.00 cash **NOW**, and we will send FARM-POULTRY **TWO YEARS** from date of receipt of order.

This Offer is for **OLD OR NEW** Subscribers.

If you are a subscriber send us \$1.00 **NOW**, and we will extend your subscription for **TWO YEARS** from expiration of present term.

This will give you the best rate we ever gave any one by clubbing, and you buy only what you want, namely, FARM-POULTRY.

FOR CLUBBING: If you want any other poultry or agricultural paper or papers, we will supply them one or more, one year, as follows:—For 50-cent papers, 30 cts.; for \$1.00 papers, 75 cts. each. Add the amount of all such wanted to our FARM-POULTRY offer as taken by you, and remit us the full amount with your first order. This offer gives you the agents' rates allowed by us on Farm-Poultry or any other paper, and **IS THE ONLY OFFER WE SHALL MAKE THIS YEAR.**

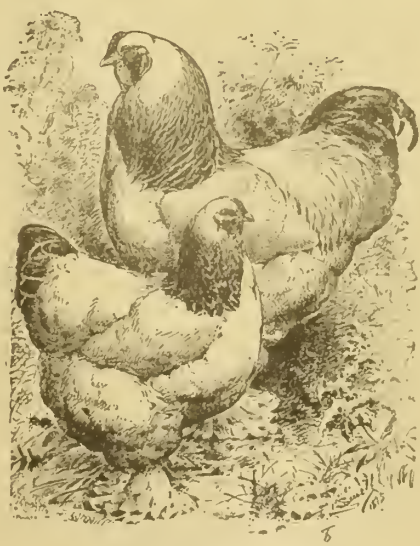

Send all orders to us, with cash, stamps, or money orders. Do not send checks unless you add 10 cts. for exchange. No changes allowed after order is entered on our books. Postage extra in the town or sub-station postoffices of any large city where either paper is published. The postal laws require it. On F.-P. the postage is 48c. per year in Boston and sub-postoffices, also to foreign countries. Therefore subscribers in any such cases must remit for F.-P. alone, one year \$1.23; for two years \$1.96 for coupon offers as above. A one dollar bill will reach us if sent in a letter addressed to

B. B. B. CONTAINS EVERY PART OF AN EGG ALBUMEN, YOLK AND SHELL.

GREATEST MEAT FOOD KNOWN **B. B. B.**
 for Laying Hens and Growing Chicks.

Boiled Beef and Bone

Differs from all other similar poultry food, in that it is made from ABSOLUTELY FRESH MATERIAL, never over six hours old. The Cattle and Sheep Heads, Lights, Livers and Beef are from stock slaughtered in the premises, and are cooked, dried, crushed, ground, mixed and bagged, all within six to ten hours from time of killing. Samples sent free.

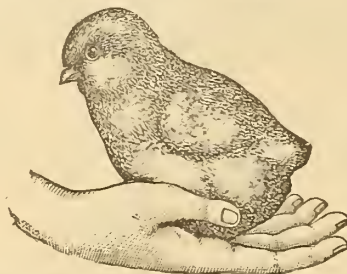

GUARANTEED cheaper than meat, better than scraps. Safer than medicine; rich in albumen. It prevents leg weakness, bowel complaint, feather eating, and assists in moulting.

50 lbs., \$1.25; 100 lbs., \$2.25.

HATCH Strong

CHICKENS.

Then keep them healthy and growing if you want the Pullets to lay when five months old. When hens lay eggs for hatching mix in their food every other day

Sheridan's Powder.

It strengthens the hens; makes the rooster more vigorous; finally you get more fertile eggs and strong healthy chickens. Persons who succeed best in keeping Poultry, commence with little chicks; giving twice a week in even teaspoonful of Sheridan's Condition Powder mixed with each quart of food, gradually increasing the dose. Sold by druggists, grocers, feed dealers, or by mail. Single pack 25 cents. Large cans \$1.20. Six cans \$5. Exp. paid.

ASBESTINE Cold Water PAINT.

You can paint "everything on the place"—the house, inside and outside, the barn, clean on down to the hen house, with Asbestine Cold Water Paint, for less money than you can paint the house alone with oil paints. It will pay you to look into this.

Asbestine Paint comes in powder form. Mix it with cold water; any one can apply it. It is **Fire Proof**, (insurance companies urge its use); it is weather-proof; it doesn't fade or rub off; it destroys germs.

Ask your dealer for Asbestine, the Original Cold Water Paint, take no substitute. Send for price list and Tint Card!

THE WISDOM OF

PRACTICAL WRITERS

MADE AVAILABLE FOR

EVERY WORKER

PUBLISHED BY
**FARM-POULTRY
PUBLISHING CO.**
BOSTON, MASS.

Two For One

The above headline means that you can get \$2 in value for \$1 in cash; or FARM-POULTRY two years for one year's payment. You will find the following interesting, very interesting, FOR YOU ONLY. Read every word carefully, then order at once.

A bright, earnest reader of FARM-POULTRY said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his FARM-POULTRY at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get Farm-Poultry for less. I would rather pay the full dollar, and get Farm-Poultry alone."

That, we believe is the sentiment of many. FARM-POULTRY is actually worth \$2 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. F.-P. will continue to give poultry news, as reported to us for its columns.

OUR OFFER

TWO DOLLARS FOR ONE.

The regular price for Farm-Poultry one year is \$1.00. If you use the coupon herewith, you can get it **TWO YEARS** for **ONE DOLLAR**.

Cut out This Coupon and Mail with Order.

FOR YOU ONLY. The Agents' rate for FARM-POULTRY in clubs of less than five subscribers at one time, is 75 cents per year. **SEND US AT ONCE,** 75 cents and we will send you FARM-POULTRY for **ONE YEAR**, semi-monthly, 24 issues. Or send us \$1.00 cash **NOW**, and we will send FARM-POULTRY **TWO YEARS** from date of receipt of order.

This Offer is for **OLD OR NEW** Subscribers.

If you are a subscriber send us \$1.00 **NOW**, and we will extend your subscription for **TWO YEARS** from expiration of present term.

This will give you the best rate we ever gave any one by clubbing, and you buy only what you want, namely, FARM-POULTRY.

FOR CLUBBING: If you want any other poultry or agricultural paper or papers, we will supply them one or more, one year, as follows:—For 50-cent papers, 30 cts.; for \$1.00 papers, 75 cts. each. Add the amount of all such wanted to our FARM-POULTRY offer as taken by you, and remit us the full amount with your first order. This offer gives you the agents' rates allowed by us on Farm-Poultry or any other paper, and **IS THE ONLY OFFER WE SHALL MAKE THIS YEAR.**

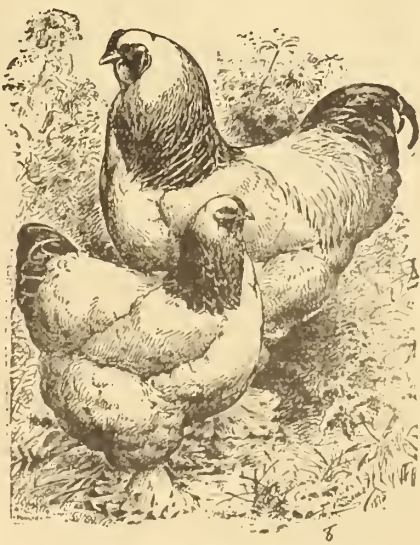

Send all orders to us, with cash, stamps, or money orders. Do not send checks unless you add 10 cts. for exchange. No changes allowed after order is entered on our books. Postage extra in the town or sub-station postoffices of any large city where either paper is published. The postal laws require it. On F.-P. the postage is 48c. per year in Boston and sub-postoffices, also to foreign countries. Therefore subscribers in any such cases must remit for F.-P. alone, one year \$1.23; for two years \$1.96 for coupon offers as above. A one dollar bill will reach us if sent in a letter addressed to

THE RELIABLE POULTRY JOURNAL, PUBLISHED AT QUINCY, ILL.,

Has bought this whole page of Farm-Poultry
IN HOPES OF
Inducing YOU, Reader,
TO SEND FOR A FREE SAMPLE COPY.

WE HAVE SPENT OVER \$100 TO GET YOU TO SEND FOR THIS FREE SAMPLE OF THE R. P. J. WILL YOU NOT RECIPROCATE BY SPENDING ONE CENT, THE COST OF A POSTAL CARD? This card, with your name and address on it will bring you **FREE BY MAIL** a sample copy (YOUR CHOICE) of one of our BIG SPECIAL MID-WINTER EDITIONS, containing FAC-SIMILE COLOR PLATE REPRODUCTIONS of **RECENT OIL PAINTINGS** made exclusively for us by the world's greatest poultry artist, Franklane L. Sewell. The November issue, 1901, contains a COLOR PLATE FRONTISPICE of a pair of PRIZE WINNING WHITE LEGHORNS; the December issue, 1901, a COLOR PLATE FRONTISPICE of a pair of PRIZE WINNING WHITE PLYMOUTH ROCKS; and the January issue, 1902, will contain a COLOR PLATE FRONTISPICE of a pair of prize winning GOLDEN PENCILED WYANDOTTES. **DO US THE FAVOR** to send your name and address, stating which number you prefer as a free sample, and it will be mailed promptly.

THE RELIABLE POULTRY JOURNAL has just begun a great work that should mean much to the poultry business as a whole. THIS WORK IS NOTHING LESS THAN BRINGING DOWN TO DATE IN PRINTED FORM THE BEST THERE IS IN POULTRY CULTURE.

We have enlisted for this work the services of the best men available, experts in their line, every one of them. On this page is shown recent portraits of the

MEN WHO NOW ARE MAKING THE RELIABLE POULTRY JOURNAL.

For the work at hand we could not have selected a more capable staff of associate editors.

Mr. FRANKLANE L. SEWELL, conceded to be the **World's Foremost Poultry Artist**, and a writer of singular ability, is now permanently associated with the R. P. J., as artist and illustrator. Hereafter the product of his pen and brush will be found exclusively in the **Reliable Poultry Journal** and in the books published by the R. P. J. Co. The poultry public may safely count on Mr. Sewell for more and better work than ever before.

Mr. I. K. FELCH, the "Nestor" of Poultry Culture, is preparing for early numbers of the R. P. J. a series of comprehensive articles on the history, development, present merit, true characteristics and proper mating of Brahmas, Plymouth Rocks, Langshans, Wyandottes, and Leghorns, including pedigree breeding and accurate record keeping, all to be fully illustrated by Mr. Sewell. These articles are meant to be Mr. Felch's legacy to later generations of poultrymen—they will be that good.

Mr. A. F. HUNTER, (for ten years editor of Farm-Poultry) is devoting special attention to the profitable production of commercial or market poultry. In the October number appeared a leading article by him, entitled "Profitable Egg Farming," with eight illustrations, reporting a special visit to the Van Dreser Egg Farm, Cobleskill, N. Y.; in the November number appeared another leading article entitled "Profitable Broiler Raising," with three illustrations, including a bird's-eye view, reporting a special visit to the Twining Broiler Farm, located near Philadelphia, Pa.; and in the December number appears still another leading article by Mr. Hunter, with six illustrations, reporting a special visit to the famous Mary L. Broiler and Egg Plant, Sidney, O., where six hundred squab broilers are marketed per day, and where three thousand laying hens are kept. Mr. Hunter's best poultry writings now appear regularly in the R. P. J.

Mr. THEO. HEWES, assisted by Mr. Sewell, is continuing his series of instructive articles on the judging, scoring and successful mating of the standard varieties, with Copyrighted Hewes Charts made by Mr. Sewell, illustrating and explaining what the Standard requires in all of the popular varieties, including shape outlines and the barring, lacing, penciling and striping of feathers, treated section by section. In October number was begun his Series on the Barred Plymouth Rocks, running through three numbers, with Thirty-Six Illustrations by Mr. Sewell. Beginning with the February number, Mr. Hewes will treat the Light Brahmas in the same manner. Thus far he has handled the Silver Laced Wyandottes and Brown Leghorns. Mr. Hewes is now regularly employed on the R. P. J., devoting his undivided time and efforts to the interests of its patrons. During the past few months he has traveled thousands of miles, east and west, visiting the yards of well known poultrymen, and reporting in his original way what he saw and heard.

Mr. GEO. H. POLLARD is preparing a Notable Series of Articles, eighteen to twenty-four in number, that are to cover all branches of the poultry business, divided about as follows:—Duck Growing, Broiler Raising, Egg Farming, the Production of Winter Chickens or Roasters, Capons, and Caponizing, the Breeding of Standard or Exhibition Poultry, and the Management of Combination Poultry Plants. Each subject will be treated in one to three articles, all to be well illustrated by half-tours made from photographs taken on poultry plants in successful operation.

Mr. W. S. RUSSELL, than whom there is no more painstaking and popular poultry judge, is now contributing the best of his services to the R. P. J., including reports of poultry shows and of visits made by him to the plants of well known and successful poultrymen throughout the Central West.

Mr. ROBT. H. ESSEX, a poultryman of many years experience, also a poultry judge and lecturer of acknowledged ability, is office manager for the R. P. J. Co. He conducts regularly the "Questions and Answers" department, and is presenting to the readers highly instructive articles on food problems and the valuable work being done on the Experiment Farms of this Country and Canada.

MEN WHO MAKE THE RELIABLE POULTRY JOURNAL.

THE RESULTS OF THE COMBINED EFFORTS

Of these men will be a monthly poultry journal far in advance of anything the R. P. J. has attempted thus far. The average NUMBER OF READING PAGES has been increased from FORTY ODD to FIFTY ODD, or about twenty-five per cent. In future, as heretofore, expense will not be spared for heavy weight, high quality paper, and the best illustrations the market affords.

THE SUBSCRIPTION PRICE of the **RELIABLE POULTRY JOURNAL** CONTINUES at 50 CENTS PER YEAR. If you, reader, are interested in the great work the R. P. J. and its staff of editors have undertaken, please do us the honor to send for a **FREE SAMPLE COPY**. THIS SAMPLE COPY WILL SPEAK FOR ITSELF. Or, if you wish to save time, permit us to say that you will be PERFECTLY SAFE IN SENDING IN YOUR SUBSCRIPTION without going to the extra trouble of getting a sample copy.

WE SUGGEST THAT YOU HAVE YOUR SUBSCRIPTION BEGIN with the November, 1901, number, so that you will obtain fac-simile reproductions of ALL THREE OF THE OIL PAINTINGS made by Mr. Sewell. THESE THREE COLOR PLATE INSERTS ALONE COST THIS COMPANY UPWARDS OF \$1,600.

Please send for sample copy promptly, (or, better still, mail us your subscription) before any one of these three big special color plate editions is exhausted. Address,

RELIABLE POULTRY JOURNAL PUB. CO., BOX 5, QUINCY, ILL.

Two For One

The above headline means that you can get \$2 in value for \$1 in cash; or FARM-POULTRY two years for one year's payment. You will find the following interesting, very interesting, FOR YOU ONLY. Read every word carefully, then order at once.

A bright, earnest reader of FARM-POULTRY said to one of our representatives recently, when his attention was called to a liberal clubbing offer, where he could get a lot for his money, and by so doing get his FARM-POULTRY at apparently reduced price:

"No, I don't want to litter up the house with a lot of other things just to get Farm-Poultry for less. I would rather pay the full dollar, and get Farm-Poultry alone."

That, we believe is the sentiment of many. FARM-POULTRY is actually worth \$2 per year to any poultry raiser. It grows better and better every year. It publishes more helpful, practical matter for the market poultry raiser than any other. It gives the fancier full opportunity to know who is doing a winning business at the Poultry Shows. It gives all the news, regardless of whether a party subscribes to, or advertises in our paper. F.-P. will continue to give poultry news, as reported to us for its columns.

OUR OFFER

TWO DOLLARS FOR ONE.

The regular price for Farm-Poultry one year is \$1.00. If you use the coupon herewith, you can get it **TWO YEARS** for **ONE DOLLAR**.

Cut out This Coupon and Mail with Order.

FOR YOU ONLY. The Agents' rate for FARM-POULTRY in clubs of less than five subscribers at one time, is 75 cents per year. **SEND US AT ONCE, 75 cents** and we will send you FARM-POULTRY for **ONE YEAR**, semi-monthly, 24 issues. Or send us \$1.00 cash **NOW**, and we will send FARM-POULTRY **TWO YEARS** from date of receipt of order.

This Offer is for **OLD OR NEW** Subscribers.

If you are a subscriber send us \$1.00 **NOW**, and we will extend your subscription for **TWO YEARS** from expiration of present term.

This will give you the best rate we ever gave any one by clubbing, and you buy only what you want, namely, FARM-POULTRY.

FOR CLUBBING: If you want any other poultry or agricultural paper or papers, we will supply them one or more, one year, as follows:—For 50-cent papers, 30 cts.; for \$1.00 papers, 75 cts. each. Add the amount of all such wanted to our FARM-POULTRY offer as taken by you, and remit us the full amount with your first order. This offer gives you the agents' rates allowed by us on Farm-Poultry or any other paper, and **IS THE ONLY OFFER WE SHALL MAKE THIS YEAR.**

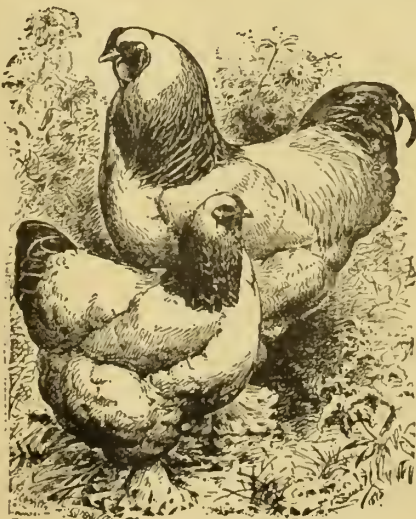

Send all orders to us, with cash, stamps, or money orders. Do not send checks unless you add 10 cts. for exchange. No changes allowed after order is entered on our books. Postage extra in the town or sub-station postoffices of any large city where either paper is published. The postal laws require it. On F.-P. the postage is 48c. per year in Boston and sub-postoffices, also to foreign countries. Therefore subscribers in any such cases must remit for F.-P. alone, one year \$1.23; for two years \$1.96 for coupon offers as above. A one dollar bill will reach us if sent in a letter addressed to

BLANCHARD'S WHITE LEGHORNS The Leading Strain of Heavy Layers.

Are no experiment, having been carefully selected and bred for over twenty years, with results that fully justify the claim that they are the greatest laying strain of Single Comb White Leghorns in existence. No labor or expense has been spared in building up and perfecting this strain, and while the production of large pure white fancy market eggs has been the main object, Standard Qualities have not been neglected. They are large, vigorous, active and handsome. Good winter layers, and keep all at all summer. Our birds are unexcelled for introducing new blood, or as foundation stock. NO BETTER ANYWHERE AT ANY PRICE.

Penetrates to Pain For EXTERNAL Use

And Allays Any Ache Anywhere.

This safe, sure skin stimulant should be used freely to bathe the affected parts. Wash the flesh in hot water, wipe dry with a towel and apply the Anodyne Liniment cold, no heat; then it will penetrate to the pain. Rub it in well with the hand. Thus used it relieves pain, allays inflammation, reduces swelling quickly, cures bruises, chaps, chilblains, lameness, muscular rheumatism. Nothing else can equal it.

JOHNSON'S ANODYNE LINIMENT.

It produces a permanent increase of vital activity in the parts to which applied, and by its energy excites the organs to more vigorous, natural exertion. It is a vital and muscle nerve. It is used and fully indorsed by many athletes. Originated by an old family physician in 1810; it was used by him in his practice for years. Therefore it is recommended by many physicians as a safe, soothing, penetrating Anodyne. It is marvelous how many common ailments it will relieve or cure, such as may occur in every family as long as life has woes.

A Great Clubbing Offer FARM POULTRY

The Best and Most Practical Farm and Family Paper Published

TOGETHER WITH
**A BEAUTIFUL ART CALENDAR
FOR 1902**

For Only \$1.00

Believing that every one of our readers should have at least one good farm and family journal, we have perfected arrangements whereby we can send that practical and instructive journal, **FARM AND HOME**, in connection with **FARM POULTRY**, including a beautiful and useful Art Calendar for 1902 as detailed below, all for only \$1.00, the price of **FARM POULTRY** alone. We are unable to give but a brief description of the contents of **FARM AND HOME**, which is unequalled for variety and excellence. Prominent among its many departments may be mentioned the—

Farm and Garden **Market Reports**
Fruit Culture **Mechanical Devices**
Fashions and Fancy Work
Feeding and Breeding **The Apiary**
Talks with Our Lawyer **News of the Day**
Dairy and Creamery **Household Features**
The Poultry Yard **The Question Box**
Plants and Flowers **The Veterinary**
The Horse **Sheep and Swine**

FARM AND HOME is published semi-monthly, the 24 numbers which comprise a year's subscription making a volume of over 600 pages, teeming with all the latest and most reliable information that experience and science can supply. No better proof of its popularity can be offered than its enormous circulation, which extends into every state, each number being read by no less than a million readers.

THE ART CALENDAR

Combines a portfolio reproducing in color one of the greatest of modern paintings and four other masterpieces in single tone, each 9x13, suitable for framing.

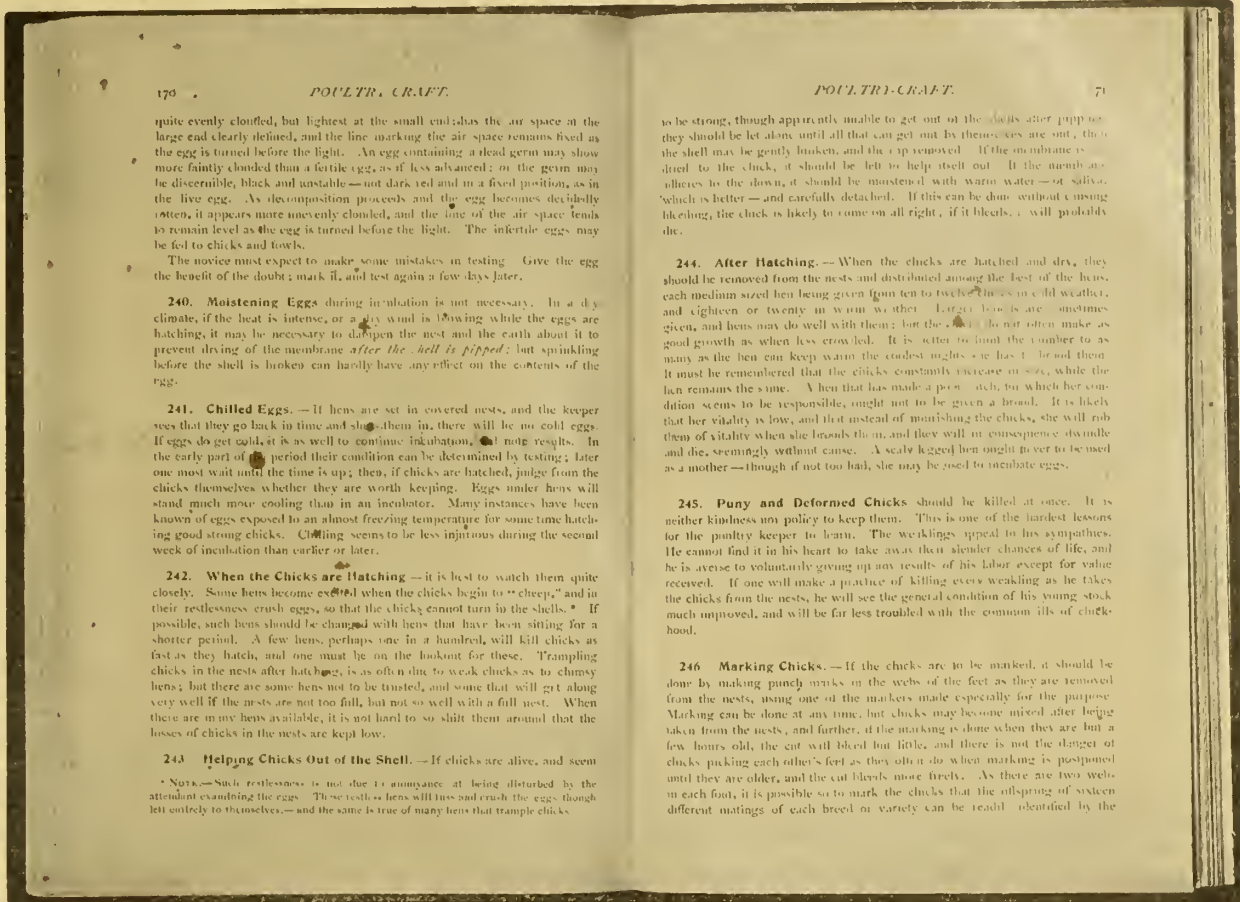

It also includes Weather Forecasts for every day in the year, space for Daily Memoranda, Monthly Guide to Work Outdoors and In, When to Buy and Sell, How to Combat All Pests of Home or Farm, Household Hints, Census Returns, Statistics, etc. The Calendar proper comprises 28 pages, 9x13, and is embellished by a beautiful reproduction in all its original colors of a most charming and famous painting entitled "W. Riting to Papa," the picture representing a little girl seated at a table with pen in hand and diligently writing her first letter to her fond papa. Four additional masterpieces in single tone are also included, separate from the text of the Calendar, each 9x13 inches.

Do not delay or fail to take advantage of this great offer, for never before was so much offered for so small a sum. Remember we send both papers a full year, including the Calendar as above described, all postpaid, at the very low price stated, \$1.00; or **FARM-POULTRY** and **FARM AND HOME** each for two years, and one Art Calendar for \$1.50. We have one of the largest poultry plants in New England, raised over 400 birds the past season. We have selected only the best birds for our breeding pens, many of them having won prizes at the leading shows, and can furnish eggs that will give satisfaction from strong, healthy birds, all large brown egg strains and heavy layers. If you want prize winners order from our best pen. For particulars send for circular standard for Rhode Island Reds. Sent free.

B. B. B. CONTAINS EVERY PART OF AN EGG ALBUMEN, YOLK AND SHELL.

GREATEST MEAT FOOD KNOWN for Laying Hens and Growing Chicks. **B. B. B. Boiled Beef and Bone**

Differs from all other similar poultry food, in that it is made from ABSOLUTELY FRESH MATERIAL, never over six hours old. The Cattle and Sheep Heads, Lights, Livers and Beef are from stock slaughtered on the premises, and are cooked, dried, crushed, ground, mixed and bagged, all within six to ten hours from time of killing. Samples sent free.

GUARANTEED cheaper than meat, better than scraps. Safer than medicine, rich in albumen. It prevents leg weakness, bowel complaint, feather eating, and assists in molting.

50 lbs., \$1.25; 100 lbs., \$2.25.
